## Investment

Of all investments, a good diamond is the safest and most certain in the increase of its capital value, in addition to the interest which this monarch of all gems gives to yourself and others. During the past three years many friends and customers of ours in the large cities of Western Canada and the Western States, acting on our advice, have made purchases of diamonds; today these investments are worth 50 per cent. more than on the day of purchase. Diamonds are still gradually rising and from information received we are morally certain they will continue to do so. A purchase made now will increase from 25 to 50 per cent. during the next few years. The better the diamond the larger the increase. All our diamonds are of the highest grade and carry our guarantee; they were purchased before the latest rise, which advantage we give to you in the price.

OPEN FRIDAY MORNING TO 1 P. M. AND IN THE EVENING FROM 7 TO 9:30 P. M.

## CELEBRATION OF VICTORIA DAY

Despite Inclement Weather the Holiday Crowds Enjoyed Themselves.

## PROGRAMME ENDS TODAY

Auto Races This Afternoon at Driving Park--Concert in Evening.

A FEATURE of Victoria's fame is the celebration of Victoria Day; and this year there was no exception. With flag-lined streets, bunting covering the face of buildings, Victoria put on her holiday garb, the man with clusters of small balloons, the cheap-jack huckster and his kind were busy at the street corners, and Victoria and her guests, who had crowded in by special steamer and train, by wagon and wheel, began the great annual holiday under a grey sky that promised nothing but rain. Elsewhere about the coast the weather observers reported downpours; in Victoria the sun bravely poked its dimmed face through a leaden sky, and merriment was king. The horse and automobile parade, which has become as distinct a feature as the time-honored regatta at the Gorge, began the celebration. The lacrosseists, meanwhile, attracted many to Oak Bay, and the men with the gun assembled for their shoot at Clover Point. The afternoon was given over to the regatta, and every available street car was on the Gorge line, tally-ho, express, cart, hack, buggy, automobile, bicycle, and other vehicles were also brought to reinforce the all too inadequate accommodation to Gorge travelers who crowded in close-packed vehicles to the flag-strewn and picturesque arm of the sea. There was also baseball for the fans and others, and in the evening thousands attended the fireworks display and illuminated automobile parade at Beacon Hill park. When the colored lights lit up the great throng with their weird glare the sea of glowing faces was great. Ere the crowd dispersed after the final set-piece, showing an outline of the portrait of His Majesty, the first spatter of rain began to fall.

The dawn of the second day was a drizzly grey one. At noon the sky began to clear, but the dampened track was in no condition to allow of the automobile racing being held, and they were consequently postponed until this afternoon. The baseball players, however, held their match in the afternoon. This afternoon the field sports of the Y.M.C.A. at Oak Bay will bring the celebration to a successful close.

The horse and automobile parade proved one of the most successful features of the celebration. The various vehicles were gaily decorated with bunting and flowers, the latter being chiefly golden brown and hawthorn. The children from the Protestant Orphans' home rode in the Dominion hotel buses. Judging took place at Beacon Hill, and prizes were awarded as follows:

**The Parade Winners**  
Following is a complete prize list:  
Best gentleman's saddle horse—1st, R. P. Rithet's Ned, ridden by J. A. Rithet; 2nd, H. S. Croft's, ridden by A. R. Love.  
Best lady's saddle horse—1st, Miss Irving.  
Best hurdle jumper, gentleman's—1st, Mrs. Dansmuir's Lady Pet, ridden by Master W. Irving; 2nd, Mr. Justice Irving's Sirdar, ridden by R. Winter.  
Best hurdle jumper, lady's—1st, Miss Irving.  
Best single horse (roadster)—1st, J. R. Collesher; 2nd, R. Goodner; 3rd, W. Spencer.  
Best pair (roadsters)—1st, McFadden & Mould.  
Best horse (roadster) entire—1st, C. R. Richards; 2nd, J. Morris.  
Best trotter or pacer—1st, C. R. Richards; 2nd, J. Morris.  
Best pair carriage horses, 15 hands and over—1st, Miss Violet Pooley.  
Best pair of carriage horses, 15 hands and over—1st, J. A. Mitchell.  
Best single carriage horse, under 15 hands—1st, J. A. Mitchell; 2nd, A. B. Fraser.  
Best draft horse, entire—1st, Munro Miller.  
Best single draft horse, 1,500 pounds and under—1st, H. Simpson; 2nd, S. Bridges.  
Best pair draft horses, 1,500 pounds and under—1st, Ernest West; 2nd,

Chas. Hoyt; 3rd, Bannerman & Horne.  
Best draft horse, over 1,500 pounds—1st, Simon Fraser; 2nd, and 3rd, Victoria Truck & Dray Co.  
Best pair horses in light delivery truck—1st, F. R. Stewart & Co.; 2nd, Weiler Bros.  
Best horse in delivery wagon—1st, Bishop & Clark; 2nd, Dixi H. Ross & Co.  
Best pair horses in delivery wagon—1st, Weiler Bros.; 2nd, Sylvester Feed Co.  
Best express, single—1st, John Smith.  
Best express, double—1st, H. Caldwell.  
Best horse in delivery cart—1st, C. W. Hanbury; 2nd, Imperial Bakery.  
Best pony, under 14.2 hands—1st, G. J. Johnston; 2nd, James Maynard.  
Best Shetland pony, in harness—1st, Miss C. Green; 2nd, Mrs. Bray.  
Best Calithumpian character—1st, G. G. Fraser; 2nd, Fire Chief Watson's family; 3rd, Jacob Anderson.  
Best decorated business wagon—1st, West End Grocery.  
Best float in parade—1st, Victoria Gas Co.; 2nd, Hutchison Bros.  
Best four-in-hand—1st, Victoria Transfer Co.

The automobile obstacle race called forth four entries, and was won by Capt. J. W. Troup, in a 10 h.p. white steamer, time 1 minute 36 seconds. Roy W. Troup was second, in a 10 h.p. Cadillac, time 1 minute 38 seconds.

**The Regatta**  
The regatta was quite the success anticipated. The races were well arranged, and the majority proved exciting. The course was kept clear by the steamer Tasmania with Dr. Carter wielding a megaphone. The officials were: Referee, Lieut. Scott, R. N.; judges, Capt. J. G. Cox, Capt. Gaudin and Lieut. Hodgson, R. N.; starter, Capt. J. W. Troup; committee, H. D. Holmbeck (chairman), Messrs. A. J. Dallain, D. Leeming, D. O'Sullivan, Thos. Watson, J. McTavish and Capt. C. B. Clarke; clerks of course, A. J. Dallain, Dr. R. H. Carter and Lieut. Kirwan, R. N.; starter of Indian canoe races, Chief Michael Cooper.

Thousands lined the banks of the Arm. The bridge, the ferryway and the city parks and Curtis point were black with people—in fact, every point of vantage was occupied.

The Indians entered into the enjoyment with more than ordinary interest. The races between the crews representing the respective tribes as usual, were fast and exciting. They were marked by a win and dash from the start to the finish, which showed conclusively the rivalry existing between them. In

(Continued on Page Three.)

## RUSSIAN CABINET TO DECLARE ITS POLICY

Premier Will Read Response to Address--Fears of Another Outbreak.

ST. PETERSBURG, May 25.—Premier Goremykin tomorrow will read before the lower house of parliament, the government's response to the address in reply to the speech from the throne and announce the government's policy. The purpose of M. Goremykin's trip to Peterhof today, the Associated Press learns which was to read to Emperor Nicholas the final draft of the cabinet's declaration of policy, was not connected in any way with the rumored shift in the ministry, which, however, is possible at no distant day. The Emperor at the last moment, advised a change in the declaration. These caused a hurried meeting of the cabinet at which the alterations were drafted and inserted. The position of the government on the amnesty and Agrarian propositions will not satisfy the general cry. A despatch to the Associated Press from Moscow tonight says that denial of full amnesty probably followed by a general strike. Similar news has been received from other industrial centres. If today passes without a general amnesty or if only limited amnesty should be granted, a general strike is expected. Hundreds of persons are leaving the city, apprehensive of a re-occurrence of the scenes of last December or collision between the Black Hundreds and strikers. A strike has already begun in the suburbs of Bogodorsk. On account of the festival of the Ascension, a great multitude gathered today at the monastery of St. Nicholas on Holy lake in the outskirts of Moscow. Workmen in the crowd attempted to organize a demonstration whereupon Cossacks charged the crowd fiercely. Many innocent persons, including women and children were ridden down and lashed by the Cossacks' whips. Two persons were killed. At another demonstration near the Shassky gate, a policeman's skull was fractured.

During a meeting today of revolutionist workmen in a wood in the outskirts of Moscow, two members of the secret police were discovered among the attendants. A court was immediately organized, before which the men were tried and condemned to death. As soon as sentence had been passed upon the men, they were tied to trees and shot to death.

## AMERICAN ATHLETES RETURN.

Competitors in Olympic Games Welcomed at New York.

New York, May 25.—The White Star liner Republic, having on board the American athletes who competed in the Olympic games at Athens, Greece, arrived in quarantine this morning. She has a case of smallpox on board and will be detained several hours. Hundreds of friends were on hand here to give the athletes a rousing reception when the steamer docked. The smallpox patient, a boy, was removed to a hospital in Brooklyn and 200 of the steamer passengers were taken to a detention hospital for observation and the steamer directed to remain at the quarantine station until thoroughly disinfected. This will require several hours.

## THE DAY AT THE FEDERAL CAPITAL

Royal Confirmation of Courtesy Title of Wife of Governor-General.

## THE ROYAL SOCIETY MEETS

Earl Grey Receives Patriotic Greetings From London on Victoria Day.

OTTAWA, May 25.—(Special)—Although by courtesy the wife of the governor-general of Canada has been invariably styled "Her Excellency," there has never been any official warrant for the use of the title, and frequently the question has been asked whether the title is properly used in addressing the lady of Rideau Hall. Recently, however, the matter was referred to the Imperial authorities, and the government has just received a despatch from Downing street announcing the royal confirmation of the title, "together with such marks of social respect as are usually accorded to the governor-general."

**Klondike Water Supply**  
The Klondike Water Supply Company has been incorporated, with a capital of \$6,000,000 to establish a system where the water from Klondike River may be brought to Bonanza, Hunker, Eldorado, Gold Run, Sulphur and other creeks for hydraulic mining purposes, the incorporators being Alex. McDonald, Dr. Willis Barrett and A. B. Palmer of Dawson, Robert Kelly of Vancouver and Alfred Hitchcock of London, Eng.

**Militia Changes**  
The following changes are noted in militia general orders: Military District No. 11, Lieut. C. F. Cotton, retired. To be district intelligence officer, sub district intelligence officer provisional Lieut. R. Britain.

**Royal Canadian Society**  
The Royal Society today elected the following officers: President, Dr. William Saunders, C. M. G.; vice president, Dr. S. E. Dawson; honorary secretary, Dr. James Fletcher; honorary treasurer, Lawrence Lambie. Rev. G. W. Taylor spoke at dinner tonight. He said that while British Columbia had an abundance of the necessities of life, it hadn't as yet the advantages of the paternity of scientific men. He hoped the society soon would have more members in British Columbia and in the near future hold one of its annual meetings there.

In the matter of the metric system which was referred to a committee it was recommended that Sanford Fleming's proposal to increase the metre to 40 inches be left open for another investigation.

**Empire Day Greetings**  
His excellency, the governor general, who is in Toronto, received the following cablegram from Lord Meath: "Empire, responsibility, duty." To this his excellency replied, "Eager to serve Empire, ready for responsibility; loyal to the King." From the lord mayor of London, the governor general received the following message: "Lord mayor of London to guests celebrating Empire Day send greetings to their brethren of Greater Britain." Lord Grey's reply to this was as follows: "Your message much appreciated. Empire Day celebrated here with much enthusiasm. Thousands of school children marched through the streets escorting daughters of the Empire who brought beautiful bouquets to decorate monuments of 'Queen Victoria the Good,' and of the famous dead who have brought distinction and glory to Canada and the Empire."

## PRINCESS ENA RECEIVES A ROYAL WELCOME

Arrival at Madrid Marked by Enthusiastic Outburst of Populace.

MADRID, May 25.—The arrival of the future queen of Spain at the Pardo palace tonight was the occasion of a magnificent ovation. At 6.30 o'clock the royal train reached the outskirts of the palace park. Here a special station had been prepared, consisting of a majestic floral arch, beneath which was suspended a huge crown of red roses and yellow jonquils. On either side of the arch was a mast bearing British and Spanish banners. Beyond this was a monster arch, which had been erected by the people of the neighboring village of Majahonda. It was dusk as King Alfonso and Princess Ena entered the floral station. Awaiting there were the Queen-mother, the Infanta Isabella Eulalia and Maria Theresa, Prince Ferdinand and the members of the government, and the officials of Madrid. The Queen-mother embraced her son and his prospective bride. The party then passed between lines of the halberdiers bearing pikes and, entering carriages, took up the route to the palace. Princess Ena, with her mother, Princess Henry of Battenburg, with the Queen-mother, entered the first coaches. Mounting his horse, King Alfonso galloped alongside and accompanied by Princes Ferdinand and

Carlos. Next came the royal horse guards in white gala uniforms. Ladies of the Madrid nobility occupied boxes along the route, from which they strewed the path of the royal party with flowers. As the party passed, Princess Ena acknowledged the act with a wave of her handkerchief. Enormous crowds of people had assembled outside the palace gates, the government giving the freest rein to popular curiosity. The passage of the royal party was greeted by tumultuous cheering and cries of "Long Live the Queen," "Long Live the King" and "Long Live Spain." Court dignitaries presenting a striking appearance occupied the steps of the palace. After entering the palace, King Alfonso directed that the public be admitted to the grounds. The public

**Surged Up the Avenues**  
forming a dense throng immediately in front of the portico. The king appeared on the upper balcony, holding Princess Ena by the hand. The crowd stood with bared heads, too greatly impressed to cheer, but a deep wave of emotion swept over the crowd. Princess Ena, with a radiant smile, gave a characteristic English wave of the hand. King Alfonso and the princess appeared on the balcony three times and saluted the crowd. This demonstrative beginning has produced a marked impression on the public, and all Madrid resounded with the praises of the princess. The crowd surged outside the palace grounds for hours, acclaiming for the bride. Later King Alfonso returned to the royal palace. Princess Ena remaining with her mother in the Pardo palace until the wedding.

**Crossing the Frontier**  
Ruin, Spain, May 25.—King Alfonso greeted his bride, Princess Ena of Battenberg, as she entered Spain in the early hours of the morning amidst an enthusiastic popular welcome and the homage of the Spanish ministry. Her special train reached the frontier shortly after sunrise. The morning mist still hung over the river Bidasoa, separating France from Spain, as the train reached the centre of the bridge, and the Spanish fortresses fired a welcoming salute of 21 guns from the heights of Pena de Aya, commanding the frontier. At the same time regiments of carabinieri and ancient Spanish guards returned to the footways of the piers, and with trumpets saluted the bride's entrance into the kingdom, while the bands played alternately the British and Spanish national hymns.

In the meantime King Alfonso, in the uniform of a field marshal and accompanied by the ministers of the crown, the court chamberlains and the military and civil authorities, awaited the Princess at the little railroad station.

(Continued on Page Two.)

## THE PRESTON SCANDAL IN IMPERIAL HOUSE

Charges in Connection With the Canadian Office Brought Up in Commons.

LONDON, May 25.—(Special)—John Mooney, M. P. for Newry, on Monday will ask Mr. Winston Churchill whether his attention has been called to the charges made in connection with the Canadian office, and whether Lord Strathcona is intermediary between the Canadian government and the colonial office for all matters between the two governments, and whether charges implicating Lord Strathcona have been made, and if so, is it the intention of His Majesty's government to make representations to the Canadian government, or if it will be impossible to have any further dealings with the Canadian office at Victoria street until all such charges have been cleared.

London, Ont., May 25.—The Labor Educational Association of Ontario held their fourth annual convention here yesterday with 70 delegates in attendance. A resolution asking that the government dismiss W. T. R. Preston on the ground of conspiracy against the interest of labor was unanimously passed.

## HENRIK IBSEN'S OBSEQUIES.

The Noted Norwegian Author Will Have a State Funeral.

Christiania, Norway, May 25.—Henrik Ibsen, who died here May 23, will be given a state funeral, a motion to that effect having been unanimously approved at today's session of parliament.

## PRESBYTERIAN ASSEMBLY.

Compromise Reached Over Question of Book of Forms.

Des Moines, Iowa, May 25.—The debate over the proposed Presbyterian book of forms ended in the general assembly here late this afternoon in a compromise in which all words that might indicate that the book is authorized were stricken from the resolutions and the text and title page of the book. The resolutions of opposition were adopted. It declares specifically that the assembly make no recommendations regarding the books. With these limitations the report of Dr. Henry Van Dyke's committee was adopted. It is believed that further bitterness between the factions has been avoided. The book of forms will be published merely "for the purpose contemplated by the general assembly of 1905" and "for voluntary use."

An effort was made by the opposition to have the names of the committee who proposed it stricken from the book, but this was defeated. By its actions the assembly virtually rescinded the action of the three previous assemblies, in which progressive steps were taken for an authorized book of forms. The compromise followed numerous conferences between Dr. Van Dyke, Dr. Moffatt and Dr. W. F. McAulay of Cincinnati, the latter being the leader of the opposition. The resolutions were in accord with an understanding reached by these men, and the vote thereon was unanimous.

## NEWS NOTES OF THE DOMINION

Kingston Life Prisoner Makes a Desperate Attempt to Escape.

## INSURANCE INVESTIGATION

Youth Receives Death Wound in Strange Manner While at Picnic.

TORONTO, May 25.—A. J. Ralston, managing director of the National Life Insurance company before the insurance commission today, said his company never lost on any investment. Regarding the question of commission, Mr. Ralston said he believed it possible and desirable to conduct the business giving salaries instead of commission. It would, he said, help to stamp out the rebate system.

W. Corlett, a Grand Trunk brakeman, was crushed to death at Blackwater Junction yesterday, while uncoupling an engine from a train. He came to this country from England about a year ago and was married at Lindsay last month.

**Mrs. John Pope Dead**  
Montreal, May 25.—The death occurred at Eastview farm, Cookshire, Quebec, on Wednesday morning of Mrs. John Henry Pope, relict of the late Hon. John Henry Pope, minister of railways in the administration of Sir John A. Macdonald and mother of Rufus H. Pope, ex-M. P. Mrs. Pope had been for the past ten years a confirmed invalid.

**Little Girl's Frightful Experience**  
St. John, N. B., May 25.—Mamie Gallivan, ten years old, who had been missing from her home at Drury Cove since Monday last, returned yesterday. For three days and nights she was wandering in the woods, with no food except some berries and water from the brooks. Search was unavailing until yesterday, when her dog guided her to a clearing, where she collapsed. The dog stayed by her and its barking finally attracted the attention of the child's brother, who was among the searchers. The girl is very much exhausted and is threatened with pneumonia.

**Prisoner's Desperate Attempt**  
Kingston, May 25.—A convict named McGee serving a life sentence, tried to escape from the penitentiary during the night. He had already spent many years in the penitentiary. He cut his way through the rear wall of his cell and secured entrance to the conduit through which pipes passed to the sewer. He crawled across the main building and near to one wall, found the entrance to a chimney which was in course of construction. He found a rope dangling and started to crawl up a distance of over sixty feet but on getting to the top his strength failed and he fell to the bottom, breaking his leg and injuring his spine. His attempt at escape was one of the most daring known here. It is the third he has made since his imprisonment. He is a very noted criminal and has spent several terms in prison. His last sentence was given for an attack on the wife of a guard.

**Royal Military College Ethics**  
Fagging has been cut out at the Royal Military college by order of the militia department and it is reported that in view of recent developments regarding fagging that ancient form of amusement has been abolished.

**A Strange Accident**  
London, Ont., May 25.—Norman Richmond, about eighteen years of age, was accidentally killed at a picnic held by the Hill street Methodist young people, at Spethigne's grove in Westminster yesterday. Richmond in participating in some sport had occasion to remove a portion of his clothing and while replacing it the accident occurred. One of his socks became entangled in the trigger of a rifle lying on the ground and while endeavoring to loosen it the weapon exploded, the ball striking him in the eye, killing him instantly.

**Port Arthur Growing**  
Port Arthur, May 25.—This town is growing at a remarkable rate, the population having trebled within four years. It has now a population of 10,216, an increase of 3400 over a year ago. The assessment totals \$6,500,000. A city charter will be applied for.

**Japan's Consul Honored**  
Winnipeg, May 25.—Hon. W. T. G. Nosse, consul general for Japan in Canada who is at present in this city will be the guest of the Canadian club at luncheon on Wednesday, May 30.

**Great Consumption of Fruit**  
Strangers from the south often express surprise at the quantities and qualities of fruit offered on the Winnipeg market, but few, even of our own citizens realize the immense quantities of fruit consumed in the city or distributed from it. During the six weeks ending May 25th, Winnipeg received from the south, 170 carloads of fresh fruit and vegetables or just about four and a half cars for every working day of that period. Of these shipments of fruit, 40 cars were filled with bananas; oranges filled the next largest number and other cars were composed of lemons, pineapples and tomatoes. When it is remembered that all this fruit with the exception of bananas pays duty, it gives an additional spur to westerners to fight any advance in fruit tariff. So far no fruit has arrived from British Columbia. It was rather expected that they would be able to forward some tomatoes about the middle of May but no

(Continued on Page Two.)

## PRINCESS ENA RECEIVES A ROYAL WELCOME

(Continued from Page One.)

tion, which was elaborately decorated with a floral arch, carpeted with red velvet and hung with the royal banners and other insignia. Scores of noble ladies of San Sebastian, with their little daughters daintily costumed in white, bore bouquets and garlands for the Princess. Premier Moret directed the governor-general to admit the public to the platform and

to give the people every facility to see their future Queen.

Unaffected Joy at Meeting  
The meeting of the King and the Princess, although a ceremonious state function, was none the less marked by the unaffected joy and cordiality of the young monarch. The King presented his ministers, who officially welcomed the bride to Spain, and she gracefully acknowledged the official salutations. The spontaneous enthusiasm of the people seemed to give the greater satisfaction to His Majesty.

The young King then conducted the party to the royal train, where the Princess was installed in a luxurious coach which had been transformed into a veritable bower of red and white roses; and at 5:15 a. m., amid continued salutes from the forts and cheering of the people, the train left Irun for Madrid. The peasantry lined the track and packed the stations along the line, giving the young couple a continuous ovation.

## WINNIPEG WIRINGS.

Picture of "Orey-Eyed Borealis" From the Far North.

Winnipeg, May 25.—Commissioner of Immigration Smith has received a photograph taken at Selwyn, Yukon, showing a perfect representation of the aurora borealis as it appears in the far north. It is believed to be the only photograph of its kind ever taken. The Winnipeg district Methodist meeting today by resolution asked that the general conference of the church be requested to so modify the itinerant pastorate law, which is one of the recognized and peculiar laws of Methodism, so as to permit a pastor to remain with a congregation as long as his relations with his people are satisfactory to both. The meeting also declared that in view of the great services rendered in all departments of church work by women they should be rendered eligible to election as officers to serve on the quarterly board or in conference.

The C. P. R. report, which was issued today, could not have been more optimistic. The reports from all over Manitoba and the West were uniformly bright, and the prospects for a bumper crop at this stage were never better. The wheat is now well out of the ground and the fields are green, while the weather as a whole has been favorable, although a few districts have had cold and cloudy days, which have set back the growth.

## NEW YORK'S SHAME.

Policeman Implicated in Recent Murder Trial Attempts Suicide.

New York, May 25.—Henry Morton, a policeman, who played a prominent part in the trial of Bertha Clache for the murder of Emil Gendron several months ago, made an unsuccessful attempt to commit suicide today after he had been indicted by a grand jury on a charge of having committed perjury at the Clache trial. While waiting in

## When the Liver is out of Order

calomel, cascara, salts, strong liver pills and purging mineral waters won't do any permanent good.

When a person is bilious, the liver is not giving up enough bile to move the bowels regularly—and some of the bile is being absorbed by the blood. In other words, the liver is in a weakened, unhealthy condition.

Now, purgatives don't act on the liver at all. They merely irritate the bowels, and afford only temporary relief. But FRUIT-A-TIVES are normally healthy, there can be no biliousness, no constipation, no kidney trouble, no impure blood, no headaches.

FRUIT-A-TIVES also stimulate the glands of the skin—and regulate the kidneys and sweeten the stomach. When skin, liver and kidneys are normally healthy, there can be no biliousness, no constipation, no kidney trouble, no impure blood, no headaches.

No other medicine known to science is so reliable and so effective in curing Biliousness as these fruit liver tablets.

FRUIT-A-TIVES are fruit juices with tonics added—and are free from alcohol and dangerous drugs. Sent on receipt of price, if your druggist does not handle them.

FRUIT-A-TIVES  
LIMITED,  
OTTAWA.

the office of a deputy police commissioner after his indictment, he placed a revolver to his temple, but was prevented from firing it. When given a glass of water he bit it and then attempted to stab himself with his pocket knife. Morton was alleged to have perjured himself when he declared that Gendron said to Bertha Clache before she had him arrested, "I will kill you when I get out. It is now asserted that Gendron could not speak English.

Edward T. Cody, another patrolman, also was recently tried at police headquarters on charges of having made false statements to the district attorney in connection with the Bertha Clache trial, and he was dismissed today.

State of Ohio, City of Toledo, Lucas County, ss.

Take Hall's Family Pills for constipation.

## NEWS NOTES OF THE DOMINION

(Continued from Page One.)

doubt the home market has been too keen to allow any of these to be shipped east, for another month at least.

To Marry Roosevelt's Cousin

S. S. Cummings left today for New York, where on June 2nd he will be married to Mrs. Woodhouse, cousin of President Roosevelt.

Architects of Manitoba organized an association today.

Mr. Patrio, Italian laborer, fell six stories this afternoon and was fatally injured.

Gabriel Dumont Dead

Batoche, N. W. T., May 25.—Gabriel Dumont, rebel leader was laid to rest here Monday near the scene of his defeat in the battle that crushed the Metis uprising. His funeral was largely attended by halfbreeds and Indians who loved the daring, courageous and resourceful old man who had led them in the hunt as well as the field. The cause of Dumont's death was apoplexy.

## SUSPECTED OF MURDER

Russian Governor Accused of Killing a Woman.

Warsaw, Russian Poland, May 25.—Governor Jelinski of Kielce is suspected of the murder of a woman named Okouline, who was found dead in a room with him yesterday. Two shots were heard by the neighbors. Jelinski declares that the woman committed suicide. The local papers have been forbidden to mention the occurrence, which has created a sensation.

## Albert D. Jordan

Organist and Choirmaster First Methodist Church, London, Ont., says that New Scale Williams Piano will satisfy the most exacting musician.

The following letter is full of his enthusiasm for this wonderful instrument. I have very much pleasure in testifying to the merits of your New Scale Williams Piano. The brilliancy and flexibility of tone, together with the delightful action, makes this instrument one that will satisfy the demands of the most exacting musician.

I congratulate you on the excellency to which you have brought the New Scale Williams Piano.

Sincerely yours,

ALBERT D. JORDAN,  
Organist and Choirmaster  
First Methodist Church, London, Ont.

44 Government Street

## SHOCKING ACCIDENT (YESTERDAY AFTERNOON)

da McKay Is Probably Fatally  
Burned Through Clothing  
Catching Fire.

Ida McKay, daughter of C. McKay, carpenter, of 222 Cook street, was probably fatally burned soon after noon yesterday, as a result of her clothing taking fire from the kitchen stove. The entire body was frightfully burned, the clothing being consumed.

The lid of the kitchen stove, in which a coal fire was burning, was found on the kitchen floor when the victim was discovered; and it is presumed that the unfortunate girl was engaged in cleaning the stove when her clothing took fire. There were no witnesses of the accident.

Attracted by the screaming of someone evidently in extreme pain, a lady who was passing the McKay residence made her way into the house, followed by a man who also heard the screams. As soon as they pushed open the front door a cloud of smoke rolled from the interior of the house. The smoke at first forced them back, but they managed to find the prostrate form of a girl on the second attempt, and dragged her to the open air. It was seen that her clothing had been burned away, and the body was most severely burned.

The ambulance and police patrol were called by telephone, and on the arrival of the ambulance the victim of the shocking accident was at once sent to the Provincial Royal Jubilee hospital, and Dr. Robertson, city health officer, who had been summoned, at once hurried thither. The girl was still unconscious when he arrived. He found her to have been burned all over the body, worst on arms and chest. She did not regain consciousness.

At a late hour last night the Colonist was informed that the girl was still unconscious, and it was not expected that she would recover.

## RHEUMATISM.

Why suffer from this painful malady? One application of Chamberlain's Pain Balm will relieve the pain and make rest and sleep possible. Many cures have been effected by its continued use. Try it and be convinced. Price 25 cents; large size, 50 cents. For sale by all Druggists.

## TRUESDALE SEVERELY SCORED.

New York Judge Censures Conduct of President of Lackawanna.

New York, May 25.—Sharp criticism of W. H. Truesdale, president of the Delaware, Lackawanna & Western Railroad, for beating a contract on that road, was contained in a decision of the United States circuit court of appeals which was handed down today. Damages amounting to \$137,823 were awarded to Robert E. Feschotte, an executor of the estate of John Paul, who had a contract under which he bought great quantities of milk from farmers and shipped it over the Lackawanna. Judge Wallace in his decision said that President Truesdale's refusal of the contract was inspired by sordid motives and committed with an "arrogance born of a scorn of the consequences," that the appropriation of Feschotte's percentage of the money which the company had collected for him was "morally no better than larceny," and that "conduct like Truesdale's by those who manage the affairs of great corporations has aroused the spirit of resentment in the public mind which is so intense today and which is not unlikely to result in litigation which will bring serious loss upon the stockholders."

## JERKING OF THE LIMBS.

"Before using Dr. Chase's Nerve Food I could not sleep, had no appetite, hands and feet were cold, my digestion was poor and I had jerking of the limbs." Dr. Chase's Nerve Food has made a radical change in my condition, building up the system and strengthening the nerves."—Mr. Wm. Branton, Victoria St., Strathroy, Ont.

## YOU ARE AILING.

Not quite sick—but robbed of ambition to work—and it hard to think clearly. Not enough to do, but not enough to do. There is a remedy—Ferrozone—that quickly lifts that half dead feeling. Gracious! but Ferrozone makes you feel good. It sharpens the dull appetite, makes it keen as a razor.

BLOOD? Ferrozone makes lots of it, the rich, nourishing kind, that vitalizes the whole body. You'll wonderfully quickly, immensely, strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve all come from this great restorative. Fifty cents buys a box of fifty tablets at all dealers.

## DEFAULTING C. P. R. AGENT.

Levitating Chicago Railroad Man Held at New York.

New York, May 25.—Five indictments, charging forgery in the first degree, were returned today against George F. Wenham of Chicago and Miss Clay Lawrence by the grand jury. The indictments are based upon an alleged attempt of Miss Lawrence to impersonate Mrs. Wenham for the purpose of transferring to New York \$100,000 worth of the latter's Chicago property. This property was said to be intended for Wenham's use in securing bail. He has been in jail here for several weeks for lack of bail on charges preferred by the Canadian Pacific Railway Company, of which he was formerly the Chicago steamship passenger agent.

NOTICE—City of Victoria, Municipal

Clashes Act, Section 50.

WHEREAS, upon an inquiry held by the Municipal Council of the Corporation of the City of Victoria, on Monday, the 14th day of May, 1906, upon the complaint of W. W. Northcott, Building Inspector for the said corporation, into the state and condition of a certain wooden structure or wharf, appurtenant to Lot 4, in Block 70, within the Municipal limits of the City of Victoria, upon hearing the evidence in support of the said complaint and the evidence in support of the said complaint, the Council found the said wooden structure a nuisance and dangerous to the public safety, and it is desirable that the same be forthwith pulled down and removed.

THEREFORE be it resolved by the Municipal Council of the Corporation of the City of Victoria, that the said wooden structure, appurtenant to Lot 4, Block 70, within the Municipal limits of the City of Victoria, and every part thereof is hereby declared to be a nuisance and dangerous to the public safety, and it is ordered that the same shall be pulled down and removed by the owners; and in case of default by the owners within five days after publication of this notice in the Colonist newspaper to comply with this order, the Building Inspector of the Corporation is hereby directed to pull down or cause to be pulled down and removed the same at the cost of the owner, and that the payment of such cost and all expenses incidental thereto shall be enforced against the owner unless paid on demand.

THE THIN MAN.

## THE THIN MAN.

USTOM tailors and "ready-made" manufacturers will tell you the "thin man" is the easiest physique in the world to fit.

They cut down a size larger and rig him out somehow.

With us the thin man is neither more nor less difficult than any physique.

We recognize in him a type just as the stout man or the regular man are considered as types—and tailor suits especially for his figure.

Then each Semi-ready suit is tailored to the try-on stage.

You can prejudice effect of color and design and fit before you buy, whatever may be your physique.

# ROYAL WHISKIES

Good whisky improves with age, but old age does not necessarily mean good whisky.

"ROYAL DISTILLERY" WHISKIES are good, to start with. They are distilled of the finest Canadian grain, by experts. Then they are stored away in the wood to age. It is purity and perfect distilling—as well as ripe old age—that give "ROYAL DISTILLERY" WHISKIES their smooth, mellow, delightful flavor.

## "Royal" Whisky

is a joy to the palate. Not a drop leaves the distillery until it is thoroughly aged. Every bottle bears the Government stamp to prove its faultless quality.

ROYAL DISTILLERY, Hamilton, Canada

## CELEBRATION OF VICTORIA DAY

(Continued from Page One.)

every instance the Valdez braves were successful, and there was great rejoicing among the representatives of that tribe in attendance.

In the schoolboys' competition, the South Park representatives defeated the Collegiate by some distance. The first Indian war canoe race brought out three entries, the Valdez, Kuper Island and West Saanich, and the former crossed the line considerably in the lead. The Kootenai's event was contested by the representatives of Valdez and Kuper Island. It was a short course, starting at the line round the buoy, back to a point opposite the official's barge. Once again Valdez was successful.

Perhaps the chief event of the afternoon, however, was the four-oared lapstreak race between the J. B. A. A., and Vancouver fours for the championship of British Columbia. This was rowed over a straightaway course, and must be accepted as a fair test of the respective speeds of the opponents at the finish by several lengths.

The various competitors and the results in the different contests were as follows:

1. Five-oared service whalers—Course round Deadman's island and return. Prizes, first \$30, second \$15, 1st, Seamen; 2nd, Marines (H. M. S. Shearwater).

2. Double scull schoolboys' race—Open to boys actually attending school. Only one crew from each school to be allowed to enter. Course from E. Crow Baker's boathouse to starters' barge. Prizes, value \$12. First, South Park; 2nd, Collegiate school.

3. Indian war canoes, 40 to 50 feet—Course around island and return. Prizes, first \$5, second \$3, third \$1 per paddle. First, Valdez; second, Kuper Island; third, West Saanich.

4. Four-oared lapstreak, amateur—Senior championship of British Columbia. Course from Point Ellice bridge to starters' barge. Prizes, value \$50, and cup. First, J. B. A. A.; second, Vancouver.

5. Tandem canoe race (ladies only)—Course from buoy near Curtis Point to starters' barge. Prizes, value \$15. No entry.

6. Skiffs—Open to amateurs, with lady coxswain. Double scull skiffs, outriggers and sliding seats barred. Course round Deadman's island and return. Prizes, value \$15. First, Miss Eberts and gentlemen.

7. Indian war canoes, under 40 feet—Course round Deadman's island and return. Prizes, first \$5, second \$2, third \$1 per paddle. First, Valdez; second, Kuper Island; third, West Saanich.

8. Tandem canoe race—Open to all amateurs. Course from buoy near Curtis Point to starters' barge. Prizes, value \$15. No entry.

9. Skiffs—Open to amateurs, with lady coxswain. Double scull skiffs, outriggers and sliding seats barred. Course round Deadman's island and return. Prizes, value \$15. First, Miss Eberts and gentlemen.

10. Four-oared lapstreak, amateur—Course from Point Ellice bridge to starters' barge. Prizes, value \$30. First, crew stroked by V. Grey.

11. Skiffs—Open to ladies, with gentleman coxswain.

12. Kootenai's race—Five paddles. Course from starters' barge, round buoy and return. Prizes, \$30. No entry.

13. Consolation war canoe race—Course round Deadman's island and return. Prizes, first \$30, second \$20, third \$10. No entry.

14. All-comers' race—Open to any sized boat with any number of oars. Course round Deadman's island and return. Prizes, first \$30, second \$15. No entry.

15. Best decorated punt—First prize \$10, second prize \$5. H. M. S. Shearwater.

**Trap Shooting**  
The trap shooting under the auspices of the Victoria and Capital Gun clubs proved a great success. There were 35 entries, covering not only this city but Vancouver, Seattle and Tacoma. Although the two top places in the general average went to Tacoma, Victoria men were well bunched up in the division of the higher prizes and generally more than maintained the reputation of the city.

1. Ten singles—Three divided for first, 7 for second, 7 for third, and 8 for fourth.

2. Fifteen singles—R. B. Rowe, first; 4 divided for second, 7 for third, and 8 for fourth.

3. Twenty singles—Four divided for first, 4 for second, 10 for third, and 3 for fourth.

4. Team competition—South Tacoma No. 1, first; Rowe 24, Lanning 23, Dahl 21, total 68. Victoria No. 1, second; O. Wieler 23, W. H. Adams 21, Lantefsky 22, total 66. Vancouver No. 1, third; Maynard 20, Whittemute 23, Russell 22, total 65.

5. Ten singles and five reverse traps—Two tied for first, 4 for second, 2 for third, and 9 for fourth.

6. Fifteen singles—Two divided first, 4 for second, 4 for third, and 7 for fourth.

7. Consolation, ten singles—Sweet, Vancouver, first; Becher, Victoria, second.

8. High average—R. B. Rowe, Tacoma.

9. Low average—Sweet, Vancouver. Out of a possible 75 the following were the highest averages: R. B. Rowe, Tacoma, 70; Lanning Tacoma, 68; W. H. Adams, Victoria, 67; Leavell, Victoria, 66; A. L. Hall, Seattle, 66; A. Russell, Vancouver, 65; Cooper, Tacoma, 65; Whittemute, Vancouver, 64; O. Weiler, Victoria, 63; and Ruppel, Seattle, 62.

**Baseball**  
The Fernwoods broke even on the two games played during the celebration, winning one and losing one. The first was taken by the home team, but yesterday's went to Washington, after a miserable exhibition of ball on the part of the locals. In the game on Thursday Washington scored two runs in the first innings, both coming in on errors, and after that they failed to tally. The locals tallied in the third, when with two hits and an error they brought in three runs, which was enough to win the game. The summary of the first game is as follows:

1. Earned runs, Fernwoods; two base hit, Tegtemier; stolen bases, Hoover Tegtemier, S. Shanks; sacrifice hits, Andrews, Carne; double play, Carne to A. Shanks; struck out, Murphy 10, Holness 6; passed balls, Robinson 2, Hoover 1; bases on balls, 0; Holness 2, off Murphy 2; time of game, 1 hour 20 minutes; umpire, G. Smith.

2. The game yesterday was played in the afternoon after having been postponed from the forenoon on account of the rain. A large crowd was out, and they were rewarded by witnessing a miserable exhibition. Differing from their play of the former day, the local team, with the exception of a few, were completely useless. Blackburn was in the box, and pitched a fine game, having twelve strike outs to his credit, but the support that he received was something that will never be forgotten. The locals had shut the visitors out till the fourth innings, when Moore started things going by throwing the ball clean out of the field in an attempt to catch Hoover at first, and A. Shanks was too tired to go after it, with the result that Hoover made the circuit of the diamond before Galop returned the ball. Not satisfied with his laziness, Shanks allowed two other players their base on errors, both of which should have been out, and both of which tallied. The locals again went up in the air in the ninth. Shanks and Moore again leading the procession. Cole reached first on Shanks' error and third on Moore's, who again threw the ball away. A hit

by Smith tallied him, and an error by Carlow completed the slaughter. The locals obtained one run in the third on errors, another in the fourth on an error, and earned one in the sixth. This completed their run getting, although they had a brilliant opportunity in the eighth, when with three men on bases and one out, the next batters were as much good as wooden men. The lack of hitting ability was very evident, and unless the locals improve this department they will very seldom win games. Several of the players can very well be dropped for the betterment of the team. The battery is very strong, but they cannot do all the playing, and unless they receive assistance it will be impossible to win. The following is the score:

Summary: Stolen bases, Murphy, McDonald, O'Brien, Moore, A. Shanks, S. Shanks; earned runs, Fernwoods 1; sacrifice hit, S. Shanks; base on balls, off Smith 3, Blackburn 3; struck out by Smith 2, Blackburn 12; double plays, Robertson to Potts, Andrews to O'Brien, Smith to O'Brien; hit by pitcher, Robertson; wild pitches, Smith 3; passed balls, Robertson 4, Hoover 2; left on bases, Washington 5, Fernwoods 10; time of game, 2 hours 5 minutes; umpire, Geo. Smith.

**Lacrosse**  
The Victoria club was defeated in both the lacrosse matches on Thursday, the Victoria team by the score of 8-0, and the senior 7-3.

Although the seniors, or, as they should be termed, the intermediates, were defeated, they showed that Victoria will have a team that will more than hold its own against the intermediates of the Mainland. The team brought over by Vancouver was a good one, and the majority of the players have had experience on the senior team, but not with the locals; and it is to the latter's credit they were not defeated by a larger score.

The Vancouver defence was very strong. With Gibbons in goal and Campbell on the defence they played a good, steady game. Campbell has not fallen off at all in his playing, and although it was thought he would be a back number, his playing on Thursday showed otherwise.

The locals were rather nervous, and before they got settled down the visitors had scored sufficient to win the game. During the first half the locals had the most of the play, but owing to the strong defence of the visitors and the poor shooting of the local home only one score was made.

In the second and third quarter the local players were not seen to such good advantage, but in the last part they picked up and played much stronger, and kept the ball in the visitors' territory.

Although the locals were defeated it was no disgrace, and it was better to have a team of young players defeated than if all the old "huskies" in the city had turned out.

From the team that represented the locals a good one will be selected, and within the next few years Victorians may expect to see their team again occupying a proud position near the top of the league.

Among those who showed to advantage during the game were Yorkie, Mason, Clegg, the Sargison boys, and Matus and Sweeney.

The Victoria West team went up against a hard proposition, and although they died game, they were unable to score. The visitors were much heavier, and had the game more at their finger tips. The locals lacked the team play that was noticeable in the visitors. With faithful practice, however, the local juniors will give the Argonauts a good game.

**The Fireworks**  
The fireworks display at Beacon Hill on Thursday evening proved thoroughly enjoyable, though some complaints were heard on the score of there not being enough of the show. While it must be confessed that the exhibition might have been continued longer to the pleasure of the vast assemblage, Messrs. Hitt Bros. gave a fine display for the money. The set pieces, though few in number, were particularly fine—some novel effects being produced here for the first time.

In the decorated automobile contest, judging in which had been adjourned until evening, Dr. R. Ford Ferrinder took first prize for the towing cars, his 10 h.p. Cadillac being brilliantly illuminated with electric lights. The second prize fell to Capt. J. W. Tramp, with his white steamer, who had arranged festoons of Chinese lanterns all over the canopy and its supports. A St. Clair got the prize for runabouts, his car being decorated in a similar manner to that of Capt. Tramp.

**Today's Programme**  
The celebration will be brought to a close today. Owing to the necessity of postponing several of the events from yesterday, the programme for today is as follows:

10.30 a.m.—Cricket match, Victoria vs. Tacoma, at the Jubilee Hospital grounds.

10 a.m.—Baseball at Oak Bay, Victoria College vs Vancouver College.

2.00 p.m.—Automobile races at the Driving park.

2 o'clock—Y.M.C.A. field meet at Oak Bay.

9 p.m.—Band concert and illuminations at the Gorge.

It was a great disappointment to the citizens of Victoria that part of the celebration had to be postponed. The first announcement made yesterday was that the baseball match that should have taken place in the forenoon was postponed till 3 o'clock. The automobile committee held off as long as possible in the hope that the weather would clear. Their hopes were groundless, however, and shortly before noon the announcement was made that the races were off till today. Among those who will compete are Virgil Hall, with a big Thomas; Mr. Reichert, with his famous Freyer Miller; Geo. Miller, with a Winton; J. Oats, with a Cadillac; Dr. Baker, Vancouver, with an Oldsmobile; A. Pope, Toledo, from Seattle; a Pierce Arrow, from Portland; another from the Mainland; a Franklin, from Seattle—which, along with the local entries, will make up some good races.

## Cured her Father's Drunkenness by a Simple Remedy.

Saves her father from a drunkard's grave. Free sample of Samaria Tasteless Prescription checks his drinking and leads to a complete cure.

"It seemed hopeless when my father was drinking, and we all felt the disgrace. When things were at their worst a friend advised me to try Samaria. I saw that you offered a free sample treatment and that the remedy was tasteless and could be given secretly. I determined to try it, and have been glad every day since the first treatment, which I gave him in his tea, cured him, and I am pleased to say he never touched whiskey now. Now and then I write you and hope you will all be as happy as I am. I am sure that you will never have stopped drinking of your own accord."

Free Package—Particulars, testimonials and price sent in plain sealed envelope. Correspondence strictly confidential. Address: THE SAMARIA REMEDY CO., 75 Jordan Chambers, Jordan St., Toronto, Canada.

Also for sale by Hall & Co., corner Yates and Douglas streets.

The races will take place at the Driving park, near the Willows, commencing at 2 o'clock.

The cricket match will commence in the forenoon and will be an all day match—that is, providing the weather is fit to play in. The following players will represent the local club: L. S. V. York, Q. D. H. Warden, W. J. D. York, H. N. R. Cobbett, T. B. Cole, E. J. Howe, G. L. Dickson, A. T. E. J. Martin, P. R. Robinson, J. C. Barnacle (capt.), Ross, W. C. Gibson, E. Ashby, H. H. Bethune.

The Vancouver college baseball players arrived in town last evening, and will try conclusions with the Victoria college team this morning at Oak Bay. The local team will be selected from the following: Williams, Johnson, Erb, Robinson, Sedger, Taylor, McLennan, Gowen, and Nason.

The band concert and illumination which were fixed for last evening will take place this evening at the Gorge. The full programme as already published will be given. The company have arranged the park in a very beautiful manner, and with the many lights on the shore as well as on the water it is expected that the scene will be a very pretty one.

Those desiring lanterns to decorate their boats may obtain them from the fire station any time today. A special car service will be put on, and it is likely that, with good weather, there will be a large attendance.

The Y.M.C.A. will hold their first annual field meet at Oak Bay this afternoon, commencing at 2 o'clock. The programme, with officials and entries, are as follows:

The officials are: Chief Watson, starter; Rev. W. W. Bolton, E. Christopher, Victoria, and G. Smith, Vancouver, judges; A. J. Dallan, R. P. Dunn, Victoria, and E. O'Callaghan, Vancouver, time-keepers; T. Galloway, official announcer; C. E. McNeil, referee; and E. M. Whyte, secretary.

Appended is the programme with entries attached:

100 yards dash—A. W. A. Phair, Lil- loot; F. Moore, F.Y.M.A., Victoria; J. Hancock, Y.M.C.A., Victoria; F. Mellor, Y.M.C.A., Victoria; O. E. Finch, Y.M.C.A., Victoria; L. Foote, Gowen Harriers, Vancouver; H. W. Ferguson, Vancouver Y.M.C.A.; W. Marshall, Vancouver A.C.; E. Murray, V.A.C.; F. Jackson, V.A.C.; E. Todd. To be run in heats.

Putting 16-lb. shot—E. Murray; A. W. A. Phair; S. W. Lorimer, Victoria; M. Doyle, Y.M.C.A., Victoria; A. Manson, Y.M.C.A., Victoria; P. Hartney, Gowen Harriers, Vancouver; E. M. Whyte, Y.M.C.A., Victoria.

220 yards—F. Mellor, F. Moore, J. Hancock, A. W. A. Phair, O. E. Finch, E. Todd, H. W. Ferguson, L. Foote, Marshall, F. Jackson. Run in heats.

Throwing 16-lb. hammer—M. Doyle, A. Manson, P. Hartney, E. M. Whyte. 440 yards—W. Bryce, A. W. A. Phair, D. McCurdy, R. Morrison, S. E. Rutter, F. Baylis, F. Mellor, E. D. Gates, T. Nute, W. Patterson, C. Galloway.

Running broad jump—F. Anderson, E. D. Gates, S. E. Rutter, A. W. A. Phair, O. E. Finch, R. Morrison, E. Murray, H. W. Ferguson, A. R. MacSwain.

880 yards run—W. Patterson, W. Bryce, C. Arnold, R. Morrison, S. E. Rutter, F. Mellor, F. Baylis, T. Nute, A. W. A. Phair, F. J. Shearer.

220 yards hurdles—S. E. Rutter, A. W. A. Phair, J. Hancock, O. E. Finch, R. Morrison.

One mile run—F. J. Shearer, F. Elkins, W. Simpson, A. W. A. Phair, W. Bryce, R. Morrison, S. E. Rutter, F. Baylis, J. Bailey, T. Nute, F. Mellor.

Running high jump—E. Murray, F. Anderson, S. E. Rutter, A. W. A. Phair, O. E. Finch, E. D. Gates, R. Morrison, E. Todd, A. R. MacSwain.

One mile relay—Vancouver Athletic Club, F. J. Shearer, C. Galloway, W. Marshall, E. Murray; Vancouver Y.M.C.A., F. Elkins, C. Arnold, H. W. Ferguson, J. Birmingham; Victoria Y.M.C.A., F. Mellor, R. Morrison, H. Baylis, W. Bryce; Victoria Cougars, E. Todd, H. B. Sargison, P. McQuade, G. McPherson.

**Talks on Orange Meat**  
(The Pure Food)  
Popping Corn and Popping Wheat

Ever pop corn? Take a handful of tiny grains—heat them over the fire—and you have "about a peck" of pop-corn. Corn is pretty nearly all carbo-hydrates, or starch. And it would take a lot of chewing to break up all the tiny cells so that the starch could be acted on by saliva in the mouth and be converted into sugars. Heat does it better than chewing. Wheat is 75% carbohydrates. Like popcorn, the tough cell walls in wheat are broken by heat. That is why we cook the wheat in making ORANGE MEAT. It goes in huge steam cookers under 20 pounds steam pressure. Steam and moisture soften the cell tissues—the heat causes the starch to swell and burst the cells—the carbohydrates are free. That is why Dyspeptics, Rheumatics and all who can't eat "starchy" foods, may enjoy ORANGE MEAT. By adding malt, all the starch is converted into wheat sugar.

Orange Meat weighs 1/4 more than any other package. 15c. and 25c. a package. At all grocers. Mercerized paper lining of the cartons insure Orange Meat being always fresh, crisp and clean. 15c. pkg. contains a coupon, good for premiums. 25c. size contains 2 1/2 times as much as 15c. size. Write "Orange Meat, Kingston," for new premium catalogue.

**COFFEE**  
The Great Nerve Restorer

Coffee, if properly made, is the greatest of all nerve restorers. Edward B. Warrman tells of a Milwaukee lady who was pronounced a nervous wreck. Although treated by the most eminent nerve specialists of New York, Chicago, Boston and Philadelphia, she could not be cured. At the request of a friend she went to England to consult the best known specialist in that country. He cured her. She returned to this country the picture of health. His remedy? Black coffee with plain diet three times a day.

Whether you are nervous or not, you will find the "Crown Brand" Coffee the most delicious and healthful stimulant. Forty cents per pound.  
Ask your grocer for it. Put up in 1 and 2 lb. tins.

## THE LAND AND THE COUNTRY.

Notwithstanding what the Colonist may have had to say respecting the railway policy of Mr. J. J. Hill as it promised to affect Canada, it has never attempted to conceal its admiration for him as a great railway man, and to a certain extent as a philosopher. It is because of his great perspicacity of vision, and his practical, constructive mind, that his designs upon the traffic of western Canada constituted a menace, or a supposed menace, to the carrying trade of Canada. However, as Mr. Hill has disclaimed any idea of diverting the traffic of the Northwest and British Columbia through United States channels, and promises to feed the Canadian railways at Winnipeg, we presume we must suspend judgment as to his intentions. We do not propose at the present moment to discuss that phase of the subject.

Speaking at Winnipeg the other day as a guest of the Canadian club, and in several interviews which he gave, he dwelt with special stress upon the importance of agriculture as a factor in developing a nation and in building up cities. His remarks were interlarded with a number of striking apothegms and aphorisms, homely in their way, but full of wisdom. Jim Hill was born on a farm, and throughout his railway career he has looked to the bushels of grain grown on the farm as his chief reliance for traffic, and every word he spoke applies, in a modified form to British Columbia. After recalling incidents of the early days in the Northwest, in which he was associated with Donald Smith, now Lord Strathcona, he said: "Your city has grown; but let me say your growth has only commenced. All cities grow out of the country that supports them. There is an old saying that 'God made the country, man makes the town.' I tell you with the country you have behind you, you have room for a greater population than the Dominion now holds. All they have been able to do in 150 years, you should do in the next 25 years."

Again he said: "Now the fertility of your soil is your greatest asset, worth many times all the others put together. Everything that is worth having comes from the farm, the forest and the mine. Between here and the Ottawa valley you have got valuable mines. I saw yesterday they had discovered anthracite coal; I hope this is true because it will add very materially in developing your manufactures—I mean the manufactures of the whole Dominion. You have in British Columbia all minerals of value, gold, silver, iron, copper, lead, and last, but not least, you have an abundance of good soil and we join in ownership with you. (Applause.) But taking away everything that you have; the farm produces more wealth, and the nation of farmers is always, always has been, and always will be the rich nation. Japan has 45,000,000 of people living on 20,000 square miles. An eminent French political economist said that at the end of the 20th century there would be two great governments dominating the world, the one the representative, or parliamentary, the other the autocratic—the United States and Russia. He did not take into account that little island of farmers, of intensive farming, on the island of Nippon."

In 1819 Great Britain started on a period of commercial expansion and colonization; a few years later, aided by steamships, it had become an empire on which the sun never set. (Cheers.) France, torn by internal and external trouble, ceased to be a colonizing nation, but went to work cultivating the land; and at the close of the Franco-Prussian war, surprised the world by paying \$500,000,000 war indemnity. Today France is the banker nation of the world. It has no extensive mines; but it has a fertile soil, handled by an industrious people. (Cheers.) Belgium supports 490 people to the square mile, raising their food from the soil.

Over and over again, he warned his hearers to take care of the fertility of their soil, and over and over again in-

pressed upon them the great economic importance of the products of the Northwest. Adverting to questions of manufacturing and reciprocity, he broke out again with: "In your education you have done a great deal, remember that what builds up your city and every town and hamlet and dots the hillside with school houses and churches is the cultivation of the soil. I hope to see the time when you will have as good an experimental farm as they have in Ontario within a few miles of where I was born, or a better one. The merchant, the doctor, the banker, everybody, depends upon the growth of the country; and that depends upon the cultivation of the soil. In the little island of Jersey, farmers make over \$200 per acre per annum, that is intensive farming; you cannot do that. But you can help by scientific investigation, by a school that would take up all these questions and settle them by experiments, what an individual cannot afford to do, but the province can do. I hope you will have a Canadian school of agriculture second to none."

Later on the same day Mr. Hill met the members of the board of trade, and in his address to them the importance and place of agriculture were again the burden of his remarks. He said that he wished to repeat that the future of western Canada depended on the cultivation of the soil more than on all others put together and multiplied by twenty. This was true of any nation that had built up a good and progressive citizenship. The agricultural position of the community had both intelligence and patriotism. The man that followed the plow could be depended on. More than that, his production was capable of reproduction, yearly. The northwest depended more on its fertile fields than on anything else. And so on.

We have other great industries in British Columbia besides agriculture and horticulture, but in the final analysis these latter will be found to be our richest asset and our greatest producer, insignificant as their relative importance may appear at the present time.

## THE GATES OF THE ROCKIES.

We sometimes agree with the Toronto Globe. We decidedly agree with it in its statement about the danger to the government from the graft which exists at Ottawa. But that is not what we wish to refer to at the present time. It has an article on the "Government Control of the Pass." It is well known now that the three railways heading for the coast—the Grand Trunk Pacific, the Canadian Northern, and the Great Northern—are all making a scramble to get into the Yellowhead Pass first, with a view to obtaining a monopoly of its running rights. The Globe in referring to it takes the same view of it that the Colonist expressed that the gateways through the Rockies should be retained as the property of the people of Canada, so that all railways would have equal running rights through them. It says:

"There could be no more unfortunate move against the unity of the Dominion than the granting of exclusive rights through the Yellowhead Pass to any private railway corporation. The backbone of the Rockies separates British Columbia from the rest of the Dominion, and the passes through which railway-building is an engineering possibility are unfortunately few. The Kicking Horse and Crow's Nest Passes are already occupied by a company sufficiently strong to have its own way in railway matters in western Canada. The Yellowhead Pass is one of the few available routes between the coast and the prairie country, and is certainly the best and most desirable, from commercial and engineering standpoints. The Grand Trunk Pacific, the Canadian Northern, and the J. J. Hill interests are engaged in a struggle for precedence in securing a right of way through this pass, and the situation is in itself sufficient to impress the Dominion government with a sense of the value of this roadway through the Rockies."

Now this is very sound doctrine, the value of which at the present time, the people of Victoria can thoroughly appreciate. The Yellowhead Pass was originally selected for the route of the C. P. R., and a great many people still cling to the idea that it was a mistake to have changed. The fact that three railways, all managed by practical men of great repute, are making a rush for it now is pretty good proof that the choice of Sir Sandford Fleming was the best choice that could have been made in the first instance for a transcontinental railway. Had that pass been chosen, Victoria today in all probability would have been the terminus of the C. P. R. That there are three competitors for the same route, with the possibility of the C. P. R. entering the race, may be accepted as fairly good evidence that Victoria will be one of the termini of one or more of these railways. We have first class betting chances.

The Globe supplements the foregoing opinion by remarking that "it is the duty of the government to see that the right of eminent domain be carefully preserved in respect to the mountain passes, and that not only in regard to new lines, but to those already built, running rights for other companies and for Dominion or Provincial lines shall be fully secured."

It may, perhaps, be splitting hairs to point out that the right of eminent domain belongs to the province and not to the Dominion, but that is only in a limited sense. As was decided by a judicial committee of the Privy Council recently in the Vancouver street end case, the control of the federal authorities is dominant. It was held by such sound, legal men as the late Hon. Theodore Davie, and others that could be named, that the right of eminent do-

## FULLERTON'S

62 Yates St., Next Imperial Bank

main vesting in the provinces made them masters of the situation, so to speak, and it was thought, and many shared in that opinion, that there would come a serious clash of authority some day, and another great constitutional fight would result; but the decision of the Privy Council referred to, places the question practically beyond dispute. Under a charter granted by the Dominion parliament, a railway company can go anywhere, and expropriate provincial lands for the purpose of right of way. It is assumed that the Dominion government can go even further and where a railway charter is granted by the provincial government, or a railway built, the same could be expropriated for interprovincial purposes. As a concrete instance, the federal authorities, in case a provincial charter had been granted to a company for a line through the Yellowhead Pass, could step in and expropriate the charter or the railway constructed under it to make it part of a railway declared to be for the general benefit of Canada.

It will be, therefore, seen that the entire responsibility in connection with the running of railways through the mountain passes rests with the Dominion government, and the Globe is right in urging that no monopoly should be permitted to any single railway company. The pass through the mountains is a national asset and opportunity, which should be retained for the benefit equally of all the railways that wish to take advantage of it. If all the four or five railways whose names have been mentioned in connection, wish to use the Yellowhead Pass, they should be permitted to do so upon equal terms, using, if necessary, one track.

Talking of the parade, Mayor Morley was the noblest Roman of them all.

The parade on the morning of the 24th demonstrated that Victoria possessed more fine horses than most people had imagined.

The first day's programme was all right. Rain came, and we are left to imagination as to what the rest of the programme would have been in case of fine weather. Members of the committee can console themselves with the fact that they did the best they could.

The Earl of Meath's cable to Premier McBride said "Rejoice!" The injunction in the case of the people of British Columbia was scarcely necessary on Empire Day. Nevertheless they appreciate the sentiment, and can truthfully say in reply "We rejoiced." Had it not been for the rain we would have rejoiced still more.

Says the Toronto Mail and Empire: Time was, and not very long ago, when it was held, by the party of purity, to be a crime for even the premier of Canada, Sir John Macdonald, to ride through the country in a private car. But now every mother's son of the enlarged cabinet has his private car, and they are being supplied with steam yachts as rapidly as possible. The old Liberalism and the new are very far apart.

A contemporary with a face quite straight speaks about the "honest" and capable government at Ottawa. At the same time the Toronto Globe was warning us about the "graft" for which it was becoming notorious. It cautioned Sir Wilfrid Laurier about permitting the birds of ill omen that were constantly flying over his head making nests in his beautiful locks. The Globe is nearer the scene of operations than the contemporary in question. We accept it as an authority in preference.

The public will learn with deep regret of the drowning of Capt. John Devereux, supt. of the Esquimalt graving dock, a position he held for some years. This regret will be all the greater from the sad circumstances connected with his death. At the time of writing, very few particulars could be ascertained regarding the mournful

event. The sympathy of the community will go out to the bereaved family, who are terribly distressed as a consequence. Capt. Devereux was, for many years, connected with marine matters in these waters and in his passing away another of our pioneers has gone to his rest. The deceased has been on the coast since 1864, and during most, if not all, of that time, has occupied responsible official positions connected with the Marine department. He was a skilled mariner, and a faithful and efficient servant of the government.

## DISEASES OF THE SKIN.

Eczema, Tetter, Salt Rheum, Ring Worm, Herpes, Barber's Itch, Itch or Scabies.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that has resisted all other treatment. Price, 25 cents per box. Every box is warranted. For sale by all Druggists.

"I Found No Poisons In  
Steedman's Soothing Powders"

Evidence of Dr. Chas. J. Fagan, Secretary Provincial Board of Health.

The jury returned the following verdict at the adjourned inquest on the infant May Duval, who died in Victoria, B. C., on January 7, a Steedman's Soothing Powder being the last medicine given:

"THAT THE CHILD, MAY DUVAL, DIED FROM NATURAL CAUSES, AND FROM THE EVIDENCE GIVEN THERE IS NOTHING TO INDICATE THAT THE CHILD'S DEATH WAS CAUSED BY THE USE OF STEEDMAN'S SOOTHING POWDER."

In consequence of the wide publicity given to this case and the fact that the unduly prolonging of the inquest, has given opponents an opportunity to impugn the composition of the GENUINE STEEDMAN'S (two E.E.'S) SOOTHING POWDERS (Waltham, Surrey, England), the proprietors are desirous of placing the facts before the public.

The Public Analyst stated upon oath that he found NO POISON IN STEEDMAN'S SOOTHING POWDERS and the verdict of the coroner's jury given above clearly exonerates Steedman's Soothing Powders.

Sworn testimony was submitted by the manufacturer's counsel, Mr. Rogers, as to the great care exercised to ensure perfect division in the preparation of the powders which have been manufactured for eighty years.

Amherst school shoes have double tips.

A Presentation.—Yesterday Mayor Morley, in recognition of the ability shown by R. C. Wood of the fire department, who in the parade acted as driver of the carriage in which His Worship rode, presented him with a fine pair of driving gloves.

The Water Problem.—A special meeting of the council is to be held Thursday next for the consideration of the water problem. Having now the decision of the court before them with regard to the Goldstream water rights, the board is understood, will be prepared to deal with the matter in a businesslike manner.

Salvation Army.—Brigadier Smeeton, commander-in-chief of the Salvation Army work in British Columbia and the Yukon Territory, who is now in the city, interviewed the members of the government with respect to a plan of work which the Salvation Army intends conducting in this province, but is at present not prepared to give the press any of the details. It will include, however, an enlarged rescue home for Vancouver, for which it is hoped to obtain generous assistance.

Parsons-Deville.—At the Centennial Methodist Church on Wednesday evening Edward Parsons, eldest son of Mr. and Mrs. G. C. T. Parsons of Birmingham, England, was united in matrimony to Miss Florence Deville, eldest daughter of Mr. and Mrs. W. B. Deville of this city. After the ceremony a reception was held at the home of the bride, after which the happy couple left for Vancouver. On their return they will take up their residence at 88 Gorge road.

Gordon Head Fruit Growers.—A largely attended meeting under the auspices of the B. C. Fruit Growers' Association was held in the Temperance hall, Gordon Head, on Wednesday evening. The speakers were: Thos. A. Brydon, president of the association, J. C. Metcalfe, W. J. Brundritt, Maxwell Smith, H. Klipp, and Jas. A. Grant. A resolution asking the government to continue the inspection of citrus fruits was passed unanimously. A vote of thanks to the speakers brought the meeting to a close.

That can not be equalled by any \$25.00 machine sold in Victoria. We don't ask you to take our word—seeing is believing. Let us show you our A-K Columbia Graphophone and you will be convinced.

**FLETCHER BROS**

Sole Agents for Columbia Talking Machines and Supplies.

Will Serve Supper.—This afternoon the ladies' auxiliary will serve supper in the Y. M. C. A. building from 5:30 to 8 o'clock, and extend an invitation to the general public.

Trial On Monday.—At the recent Kamloops assizes, Deputy Attorney-General McLean asked for a date to be fixed for the trial of the mail robbery case. Mr. Macintyre, for the defence, asked to have the case held over until the fall assizes. Mr. Justice Irving overruled the objection, and fixed Monday, 28th inst., for the trial.

Two Matinees.—There will be two matinees at the Grand today, beginning at 2.30, at which only ten cents will be charged for children, and the week closes with the usual performances to-night. The bill includes the Lutz Bros., Miss Marie D. Wood, the Broadway trio, Clifford and Orth, Frederic Roberts, and a good line of moving pictures.

The Merry-Go-Round.—Today the patrons of the merry-go-round on Douglas street will have the opportunity of competing for prizes. Proprietor Kirk has arranged to give a prize of \$250 for the best exhibition of riding by girls under 14, and a similar prize for the best exhibition by a lady. The first competition will take place at 5.30 this afternoon and the latter at 8.30. Three well known horsemen have consented to act as judges.

Fruit Growing In Kootenay.—The 20,000 club of Nelson has just issued a very neat folio on the facilities and advantages possessed by the territory around Kootenay Lake for successful fruit growing. That that view is justified is shown by the fact that apples grown in that district were awarded a medal at the last exhibition in London of the Royal Horticultural society of England.

Won Handsome Cup.—The victory of the Valdez Indians at the regatta on Thursday gave them possession of a handsome silver cup, presented by W. R. Dickson, of the Colonial Bakery. The cup was put up for competition three years ago, and was to become the permanent possession of the tribe winning it three times. This has been done by the Valdez crew.

Bishop Stringer's Address.—Bishop Stringer will give an address upon missionary work within the Arctic circle at Christ church cathedral schoolroom this evening, at 8 o'clock. The bishop has been chosen to succeed Bishop Bonpas. For the last ten years Dr. Stringer has lived at Herschel Island, which is described as "the most northerly inhabited spot in the British dominions, and, perhaps, the most inaccessible. It is a bleak, desolate, treeless island, ice-bound for nine months of the year, and surrounded by floating masses of ice during the short summer." Explorers rightly command the interest of the general public, and church people will desire to know of the work of such a man who has given up his life to minister to the Eskimau and Indians in the Arctic regions. The bishop's diocese will now include all the Yukon territory.

Farewell to Pastor.—At Sidney on Wednesday evening, members and friends of the North Saanich Methodist church assembled at the parsonage to bid farewell to the Rev. R. B. Laidley, who is being transferred to Nanaimo (Hillbottom street) church. During the evening Rev. Dr. Reid, on behalf of North Saanich residents, presented Mr. Laidley with a suit case and in a few well chosen words conveyed to the pastor and his wife the hearty wishes for a happy and successful future. General regret was expressed that Mr. Laidley had to sever his connection with this circuit after one year's residence, and the hope was expressed that his health would be improved with the change. During the evening Mrs. Copeland, Mrs. Roberts, Miss Dorothy Roberts, and others rendered selections of music. Refreshments were served by young ladies of the church.

Fireman's Death.—The death occurred at the Jubilee Hospital on Thursday of John Gardner, a member of the Victoria fire department. He had been ailing for several weeks. It was in 1888 that he first became ill. In 1896 he left for Montana, returning a year later. Shortly afterwards he joined a party in an attempt to reach the Klondike by way of the Stikine River. Coming back in 1898, he was disappointed to find that the party had failed, and he returned to the city, with which he served until a short time ago. Until within the past year he drove the engine, and then he was transferred to James Bay at his own request. Deceased was 62 years of age. He leaves no relatives in Victoria. The funeral has been arranged to take place tomorrow afternoon. The remains will be carried on the hose wagon which the late Mr. Gardner drove just before his illness. Members of the local order of Eagles have charge of the arrangements for interment.

To Tour the West.—Again this summer a large party of the leading Washington newspaper correspondents will make a tour of western Canada, the guests of the C.P.R. and the Western Canadian Immigration society. Last year a party were taken from Montreal to the coast and back, the result being a flood of newspaper articles on Canada's great West, which did much to familiarize people all over the United States with the fact that there was a wonderfully fertile country to the north of them, which would make an admirable field for their surplus farming population to seek fortune in. So satisfactory were the results that the experiment will again be tried, with the difference that so charmed were the Washingtonians with their trip that two excursions will have to be run this year to accommodate them.

North Ward School.—North Ward school observed Empire day in the forenoon by patriotic lessons in the individual rooms, and the last hour a general programme in the assembly room. This consisted of interesting music, recitations and exercises by the children, and able patriotic addresses from Jos. Peirson, Esq.; Rev. S. Thompson, and Mr. St. Clair. Mr. Peirson dwelt upon the extent and power of the empire, the heroism and sacrifice of those who have made her what she is, and the necessity of organization on patriotic lines. Mr. St. Clair called attention to the fact that in emigration to the United States foreigners forget their home-land, but Canadians generally remained loyal to the land of the maple leaf. He recited an original poem on "Patriotism." Mr. Thompson called attention to Victoria Day as instituted by Canada, and advocated more patriotic exercises, that boys and girls may be able successors of those who preceded them in the making of an empire.

Message From Meath.—On Thursday Premier McBride received the following cablegram: "London, May 24th—Rejoice; (signed) Meath." The sender was Lord Meath, president of the Empire Day League.

College of Pharmacy.—Among those who passed the annual examinations of the Ontario College of Pharmacy, held at Toronto, May 6th to 9th were two British Columbians—Leslie G. Henderson, of Vancouver, and J. McArthur, of Victoria.

THROW MEDICINES TO THE DOGS

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbe irritation—Catarrh—Catarrh not only destroys disease germs, it does more, it heals diseased and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrh, which is splendid also for colds, coughs and irritable throat. Remember you inhale Catarrh—Nature's own cure—use no other but Catarrh—It's the best catarrh cure made.

**FUNERAL NOTICE**

THE MEMBERS OF VICTORIA AERIE, NO. 12, WILL MEET IN EAGLE HALL, SUNDAY AFTERNOON, AT 2 O'CLOCK, FOR THE PURPOSE OF ATTENDING THE FUNERAL OF OUR BROTHER, JOHN GARDNER.

## PROFESSOR Mc LENNAN HAS REACHED THE CITY

Will Lecture on Metric System  
Before the Board of  
Trade.

Prof. J. C. McLennan, of Toronto University, who will lecture here on the metric system under the auspices of the Victoria board of trade on Monday evening next, reached the city last evening and is a guest at the Driand.

Prof. McLennan was sent out at the instance of the federal government to lecture on the merits of the system; and since May 2nd last has delivered addresses before the boards of trade of Port Arthur, Winnipeg, Brandon, Regina, Saskatoon, Edmonton, Calgary and Nelson. He will deliver his final address in the west at Vancouver the coming week, and will then proceed to the maritime provinces. He has already, in a previous tour covered the territory in Ontario and Quebec.

In an interview with a Colonist reporter last evening, Prof. McLennan explained that his mission was not in any sense one which could be construed as in the nature of attempting to force the system upon the people; on the contrary, if the system was a bad one it would be a crime for Canada to adopt it. He believed its adoption would prove beneficial to the country and would fully explain why he thought so. All he asked was that people receive what he had to say with an open mind—not with the blind antagonism which some people evince before a case is presented.

Those who have heard Prof. McLennan's lecture at points in the east say that aside altogether from the point as to the wisdom of the adoption of the system, the discourse is very en-

tertaining and instructive, illustrated as it is with nearly 900 measures which the professor carries with him.

The metric system of weights and measures was made compulsory in France in 1802, but as many opposed its adoption, it was subsequently decreed by the national convention in 1812 that the old measures, though metrically altered, should still be used. This system of compromise went on until 1875, when a law was passed which prescribed that from January 1, 1810, none but the weights and measures of the metric system should be employed. The agitation in favor of the metric system gradually extended throughout Europe and soon after the constitution of the German Empire it was adopted in that country. An act passed in August 1878, made it optional from January 1, 1872, and since then the metric system alone has been legalized in Germany. In 1873 its use was made obligatory in Austria, and somewhat later in Italy. The movement has extended to America, to Africa and to Asia, and at the present time the metric system is the one official and legal system of weights and measures in force in 43 of the countries of the world.

### THE DAHL CONCERT.

Attractive Musical Event Arranged for  
Tuesday Evening Next.

Miss Olivia Dahl, the charming Norwegian songstress who is to make her debut before a Victoria audience on Tuesday evening next, at Institute hall, will, on that occasion, have the support, not only of her brilliant accompanist, Miss Gina Smith (a daughter by the way of the famous Franz Anton Schramm), but also of the Margherita Mandolin club, whose performance at the recent club concert was a revelation to music-lovers in this city. Miss Dahl, although her name is less familiar to western America than that of many of the noted singers of the times, is no whit less charming and capable in her work than the best of those now before the public in concert work. Particularly is she to be admired in the wonderful music of her countryman Edward Grieg, whose friend and protégé she is. Her Norse folk-songs also are a unique musical treat. It was the veteran musical critic of the San Francisco Chronicle, Peter Robinson, who wrote of her first recital in the Bay City, the following:

"Miss Olivia Dahl, the foremost Norwegian singer, who gave her first concert in this city last evening, and who came here as an exponent of Grieg, proved a distinct attraction for her countrymen and all lovers of good music, and received a most enthusiastic greeting, being presented with many floral tokens of good will. Before singing her Grieg numbers, Miss Dahl gave a number of songs by other composers, but her voice was heard at its best in the haunting songs of the man who the critics agree has done the best and the most original work in the last fifty years. Miss Dahl was coached in these songs by Mme. Grieg, and so she gives them new meaning and an added grace. In the collection the most beautiful was perhaps 'Dei Feste Mode.' The folk-songs in costume, which concluded the programme were a novel, interesting and melodious feature. Miss Dahl is particularly fortunate in her accompanist, Miss Gina Smith, who is thoroughly musical and sympathetic in her playing. Her accompaniments were exactly what they ought to be, and her solo 'On The Mountain' (Grieg), was a most enjoyable number, telling how fully she has grasped and how well she can in-

terpret the meaning of the modern master. No student or admirer of Greg can afford to miss the opportunity of hearing the best possible interpretation of his songs—that given by Miss Dahl."

In view of the fact that musical entertainment has been something of a demand upon the pocketbooks of Victorians of late, and so as to permit everyone with a taste for good music to enjoy the forthcoming concert, the prices of seats have been placed at the low figures of 75 cents and \$1.00 for reserved seats, the general admission being but half a dollar. The seat plan is now open at M. W. Waitt & Co.'s and it is to be hoped that a good house will be given these capable artists, who have lost so heavily as a result of their ill-timed visit to devastated San Francisco.

### A RECORD BREAKER.

French Liner Makes Fastest Trip From  
Havre to New York.

New York, May 25.—All records from Havre to New York were broken by the arrival here of the new French liner La Provence in 6 days, 3 hours and 35 minutes. Her time was better by 5 hours and 35 minutes than the best previous record.

## A MISSIONARY PIONEER NOW VISITING VICTORIA

Bishop Stringer of Selkirk to  
Give Interesting Lecture  
This Evening.

Victoria will have an interesting visitor at the end of this week in the person of Bishop Stringer of Selkirk, who is returning from Eastern Canada to his diocese in the far North.

The bishop is still a comparatively young man but his life has been strenuous. In 1894 he volunteered to go in connection with the Canadian Church Missionary association to lonely Herschel island in the Arctic ocean, there to work among the Eskimo. The island is principally known to the outside world as one of the chief stations of the American whalers. The captain subscribed \$800 for the establishment of the mission and Mr. Stringer who had made his way there from the mouth of the MacKenzie river, 200 miles away, settled down with a sod rectory and a blacksmith's shop for church, the anvil constituting the altar. There at the most northerly inhabited spot in the British Empire he and his wife lived year after year through the long nine months' winter with its period of sunlessness and the three short summer months.

A sentence from one of his letters reveals a world of sacrifice: "No ship came from San Francisco in the fall, and consequently we did not receive our supplies for the year. However, the homeward-bound ship landed some necessities, and we shall be able to get through the winter very well."

And the brave heart of the man is seen when one reads after a long cold journey across a chain of lakes (and he who knows lake traveling in zero weather with a playful breeze will understand the circumstances) combined with the unpleasantness of Eskimo houses: "Wherever I went I received a cordial welcome and this made up for any little inconveniences."

When health compelled his withdrawal from so vigorous an outpost of Empire, he became rector of Whitehorse in succession to the Rev. H. J. Bowen, rector of Ladysmith. And when that old hero of the mission field, Bishop Bompas, resigned at the end of last year, it was unanimously felt that the pioneer of Herschel island was the man for the oversight of Selkirk diocese.

Bishop Stringer will address a Missionary meeting in the Cathedral schoolroom this evening at 8 o'clock. To this meeting all are cordially invited, and it is confidently asserted that they will not be disappointed. Bishop Stringer is a churchman of whom Canada may well be proud.

### LETTERS TO THE EDITOR.

[The Editor does not hold himself responsible for views expressed by correspondents.]

### THE NEW C. P. R. HOTEL.

SLR—"THAT the C. P. R. hotel," a visitor was overheard to say: "I should have

thought it was a barracks, if I had not seen the back of the building, but then I was sure that it must be a jail." I happened to speak in more guarded terms to the architect in a rare yesterday, and he at once pulled out of his pocket a pencil and an envelope and drew the present building (plain to a degree); but he went on to add the upper storey, roof and towers, of which this is only the foundation, and it appeared "a thing of beauty." As for the offending back, he explained that the foundations were laid for a handsome pile to face Douglas street, and altogether hide the parts that are now in evidence. May I suggest that you should have the hotel as it now is photographed, and by the side publish a drawing of what it will be when finished? If I were in the humor to moralize, I should say that it is a type of so much, if not all, of life. It may look like a failure; it is not really

so? "What is our failure here but a triumph of evidence. For the fulness of the days?" W. W. C.  
Victoria, May 24, 1906.

### BEATEN BY C. P. R.

Spokane-Review.  
The transcontinental railroads have been powerful factors in the settlement of the Pacific Northwest. The Northern Pacific, as the pioneer line, led in this work, but the Great Northern and the Harriman lines have also contributed to the bringing in of new population. It was a wise policy which made the immigration bureaus of these railway systems an important part of their organizations. The present marvellous prosperity of the railroads all goes back to that policy, as every new settler brought into the country made a permanent contributor to them.

## KEEP THE LITTLE ONES SAFE AND HEALTHY

## LACTATED FOOD

A Preventive of Summer Complaints

Infant mortality is always high in summer time. This is largely due to the character of nourishment that infants receive. The little ones, who are deprived of mother's milk, are mostly fed on cow's milk, too often diluted, sour, and fatal to weak stomachs.

To mothers who are anxious for the safety of their babies in summer time, we would confidently recommend Lactated Food, now so generally prescribed by physicians and so universally used by mothers all over Canada.

Lactated Food prevents cholera infantum, dysentery, diarrhoea and fever; it promotes perfect digestion and healthy growth, and during the teething period it is the ideal food. Give Lactated Food a trial, dear mother, if you would keep baby well and strong.

"This is a serious condition for the Island Empire and the American railroads, and these astounding results may be traced directly to the exceedingly liberal policy of the Canadian government and the Canadian Pacific railway. The 'certificate' mentioned by the Spokane agent of the Canadian immigration office entitled the holder to ride free over the lines of the Canadian Pacific to the point of destination where he is expected to settle. In furtherance of its vigorous policy of taking American settlers into Canadian territory, the Canadian Pacific is spending enormous sums in general immigration work and for publicity. In some cases it gives free tickets to homeseekers, and in nearly all cases it carries free their household effects."

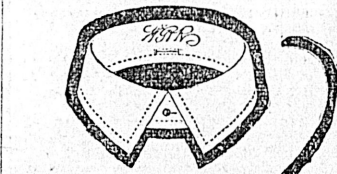

While the immigration agents of the Northern Pacific and the Great Northern, Mr. Mott and Mr. Bass, are doing vigorous work within their limitations, it is

evident that the higher officials of these roads could have a keener appreciation of the situation. With everything in their favor they permit the Canadian Pacific to invade their territory and literally take scores of thousands of American citizens out from under the flag and establish them in a foreign country.

You will need a rest, after so much Gorge and jam on the 24th. Be sure and see Robinson's three snaps for Saturday. Flannelette Blankets, Bed Spreads and Lace Curtains. Robinson's Cash Store, 86 Yates street.

### TARIFF REFORM DINNER.

New York, May 25.—The Reform Club has completed arrangements for a tariff reform dinner to be given at the Waldorf tonight. Former Governor W. L. Douglas of Massachusetts is to deliver the principal address.

# We'll pay your Railroad fare and Hotel Expenses

If you have any doubts about the Great Western Oil Refining & Pipe Line Company or what they are doing and are going to do, take the train and go to Erie, Kansas, and look at their plant and see what they are doing. If you don't find everything exactly as represented, if you don't find them refining hundreds of barrels of oil a day at a great profit, if you don't find that they have the oil and the market and everything else just as we state, we will pay your railroad expenses there and back and your hotel bill in full. We know what we have and what we are doing and what we are going to do, but we don't want you to feel at all skeptical or have any doubts or misgivings about coming in with us. We are willing, therefore, to pay your railroad and hotel expenses if you don't find everything there exactly as we say it is. We will even go further than this:

## YOUR MONEY BACK IF YOU WANT IT.

We court the fullest and most thorough investigation. We want you to be just as well satisfied that we have the biggest winner on earth as we are ourselves. We don't want your money if you do not feel this way about it. Therefore we will make you this remarkable and unusual offer. Take thirty days to look us up and investigate us. If you do not find everything all right and just as we have represented it to be, and, if after your investigation you are not fully and perfectly satisfied with your investment, all you have to do is to let us know and we will refund every cent of the money you have paid us for this stock, and you return stock to us and no harm done. Does this look like a fair proposition? Can you afford to pass this opportunity by when you can see for yourself that you are not taking a chance on earth?

## WHAT WE HAVE AND WHO WE ARE.

Now is the time to make an investment that will not only increase enormously in value, but will continue to pay you a good income in the way of dividends for the rest of your life. We have the refinery in operation in the heart of the most productive oil region in the world. We own the ground on which it is built, as well as the plant itself, free and clear of all incumbrances. In addition, we own leases covering over two thousand of the best proven oil land in this district. Wells have been drilled on much of this territory and our supply of oil will be inexhaustible for years to come. We have a ready market now for more oil than we can produce and it is for the very purpose of increasing our production to be able to meet this demand that we are offering this stock at this remarkable figure—less than one-half its actual worth. It is time to buy now if you ever want to buy. This opportunity will not remain open long. You will not have a chance to buy this stock for 25 cents a share but a few days more.

## THIS STOCK JUMPS 100 PER CENT JUNE 15.

This stock will be raised to 50 cents a share on the 15th day of June, 1906. Just keep that in mind. It is really worth more than that, based on the net earning capacity of the company right now. What will it be worth when we get our capacity increased to what we intend to increase it? Answer that question for yourself. You can form some conception by reading a few lines further what the earning capacity will be and what your stock, which you buy now for 25 cents a share, will be worth when we reach this capacity.

## ENORMOUS PROFITS IN OIL REFINING.

The net profits on refining 5,000 barrels of oil daily, which is our proposed and projected minimum capacity, is \$11,357.00. The net profits for one year, based on 312 actual working days, is \$3,554,741.00. This shows dividends of over 35 per cent on the company's total capitalization of \$10,000,000. This means dividends of over 140 per cent on your actual investment when you buy at 25 cents a share. You don't need any one to tell you that stock paying these dividends will be worth many times more than par, do you? You don't need to have any one tell you that this stock at 25 cents now is a pretty good investment, when every cent you pay for it goes to bring about this increased production and this enormous increase in the value of your stock, do you? Now don't wait, then, until it is too late.

### The Best of Bank and Mercantile References.

August Gehner, Pres. German-American Bank, St. Louis, Mo.; Franklin Bank, St. Louis, Mo.; Union National Bank, Kansas City, Mo.; Allen State Bank, Erie, Kansas; Bank of Erie, Erie, Kansas; Hamilton National Bank, Chicago, Ill.; Dun and Bradstreet Mercantile Agency.

### You Can Buy This Stock on Installments.

You can either pay the full amount you subscribe for in cash or pay 20 per cent down and 20 per cent a month for four months thereafter. We will accept no orders, however, for less than 100 shares, which means \$25.00, or \$5.00 down and \$5.00 per month till fully paid. Of course, larger subscriptions are to be paid in the same proportion. If full payment of stock is made at once, you may deduct 2 per cent. Address all orders, subscriptions and communications to

Great Western Oil Refining & Pipe Line Co.

### Read What the State Oil Inspector Thinks of Our Plant.

Extract from the Erie, Kansas, Record, March 15, 1906.

### STATE OIL INSPECTOR HERE

Tests the Great Western Oil and Finds It to Be Remarkably High Grade—The State Inspector's Impressions of the Refinery Here.

"The people of Erie ought to be proud of the Great Western refinery for it is a great institution," said State Oil Inspector L. T. Husey after a careful examination of the refinery last Tuesday. The state inspector was quite surprised to find in this independent refinery a large and substantial institution, perfectly equipped for oil refining, and was more surprised at the superior quality of its products. "We made a careful test of the oil to-day," said Mr. Husey, "both with respect to its gravity and to its flash. I do not hesitate to say that it is a very high grade of oil. Its gravity is just a trifle under 45 and most of the oil on the market does not run over 40. Our instruments registered exactly 44.7 and that is a fine showing for any refinery. The flash of the oil is 115 and 110 is all that is required. There should be no difficulty in finding a ready market for that class of refined oil."

Mr. Husey spoke of the fine brick buildings and was very much pleased with the substantial appearance of the plant. He said that everything had been provided in the way of equipment that could possibly add to the convenience or efficiency of the work there and declared that the large investment was fully justified. He was very generous in his compliments of Manager John M. Cameron and the superintendent, Dr. P. E. Knock, the thorough business methods at the office and lack of exaggeration in the statements of the officers made a favorable impression upon the inspector. After leaving the refinery he said to a friend that Dr. Knock was one of the best posted oil men he had met anywhere. The Great Western is the largest and finest independent refinery in the middle west. It is fully equipped with all modern appliances, and the entire plant with a capacity of 1,000 barrels per day is in perfect running order. The visit of the state oil inspector here was occasioned by the notice he received from the refinery that the Great Western was ready to go on the market. He tested several tanks of oil before leaving Tuesday.—The Erie Record.

The steamer Princess Beatrice arrived on Thursday night from Seattle with H. C. Bullen of the British Columbia Salvage company, and Mr. Hardy, engineer, returning after salvaging the steamer Mariechen now being towed down by the Salvor, and Capt. Johnston of the disabled steamer Mount Royal among her passengers. The steamer Salvor and her tow were seen in Frederick Sound making good progress. The rescued steamer is expected to reach Esquimaux on Tuesday next. The salvage of the vessel is considered one of the greatest feats of the kind in North Pacific waters as the hull of the German vessel was so severely injured. In patching the steamer temporarily before she was floated, over 80 barrels of cement were used.

The Princess Beatrice also brought south the cylinder head and other parts of the machinery of the steamer Mount Royal, as well as a galley range which was partially wrecked by the cylinder head which blew off. The repairs are being made at the Victoria Machinery Depot and will be completed within ten days. It is expected the steamer will be in service again as soon as navigation can be resumed with the falling of the river, at present flooded.

When the accident occurred as a result of the breaking of a pin in the cross head which let the piston go through the cylinder head the cylinder head was torn off with great force and sent flying into the water where the Chinese cook was standing near the range. The flying machinery whizzed past the back of the Chinese tearing away the seat of his trousers and cutting through the range. The steamer's hull was, however, not damaged in any particular as a result of the accident. The steamer was five miles below Hazelton and on her third and last trip up the river before high water when the accident took place.

Passengers and some of the freight of the steamer were taken on to Hazelton in canoes and the steamer headed down river under the power of one engine. Great praise is given Captain Johnson, her master, for getting his steamer safely down and a treacherous river in her disabled condition. The task of getting down through the Skeena Canyon, the worst piece of navigation in the North, was accomplished with great difficulty by dropping the steamer through stern first on heavy hawsers and cables, consuming ten hours to make three-quarters of a mile.

High water is now in the Skeena river and navigation will be closed in all probability till about the first of July. Other passengers who arrived by the Princess Beatrice were S. C. Jamieson, Captain G. B. Pillsbury, A. L. Thomas, Constable Cashman, W. D. Freeman and wife, O. M. Arnold and wife, Louis Brodeur, Charles Calleen, E. Evans, L. S. V. York, A. J. Anderson, A. M. Ward, J. W. Graham and M. Mitchell. According to passengers arriving on the steamer through navigation on the Yukon river is expected to open about the first of June. At present there is a big rush of people to Conrad City and building operations are being rushed at that point.

The Princess Beatrice will sail north again tomorrow night, taking a heavy freight.

### THE MAHENO SAILS.

Turbine Steamer Returns to Australia—Teucer Again in Port.

There were three large liners in port since the Colonist last went to press, the returned steamer Teucer which came back from Tacoma to discharge the machinery and boilers for the steamer Prince Royal and other freight and load a large shipment of whale products and a number of shipments of general freight, the turbine steamer Maheno en route back to Australia, and the new C. P. R. Oriental liner Montezuma, recently added to the fleet, which arrived before midnight at William Head and will dock this morning. The Maheno had a comparatively small complement of passengers and 1200 tons of freight, including shipments of dressed lumber, machinery and paper. The steamer will make but one more trip to British Columbia ports and will return to the Australia-New Zealand run in the fall.

Among the passengers for the Anti-

Don't blame the opening of the oven door if your cake "falls." The fault is in the baking powder. A cake was never known to fall with Crescent Egg Phosphate Baking Powder. All grocers, 40c pound.

moisture for the trees in the latter part of the summer months. The snow melting during the summer gives source to numerous creeks which are utilized for household purposes. The meteorological record shows the duration of bright sunshine is not exceeded by any other locality. The winters are mild, and it is only in occasional years that the thermometer reaches zero mark. The fact that the steamboats make daily trips throughout the year is sufficient evidence of the mildness of the climate.

The arrangements that have been made by the C.P.R. for a daily refrigerator car express service will be of great assistance to the growers. Fruit experts state that the Kootenay district will be celebrated for the strawberries that can be grown here. The Kootenay berry equals if not exceeds the famous Hood River berry that grows on the south of this district. The award of the special medal to the fruit of this district at the Royal Agricultural exhibition held in London, Eng., last fall has demonstrated to the world the quality of fruit which can be raised in this district, and certainly added great activity to the production of fruit.

## Diamond Dyes

Will Dye any Article of Clothing From Feathers to Stockings

The Only Package Dyes That Make Fast and Unfading Colors.

Feathers, ribbons, silk ties, dress silks, shirt waists, dresses, capes, jackets and shawls can be dyed at home with Diamond Dyes so that they will look like new. Try a package of the Diamond Dyes, and see what a bright, beautiful, non-fading color it will make, with but little trouble.

Diamond Dyes are the greatest money savers of the age, as many a woman with one or two ten cent packages of these dyes has dyed her old dress a lovely and fashionable color so as to save the expense of a new one. Partly worn clothing can be made over for the little ones, and by dyeing it with Diamond Dyes no one would recognize that the dresses and suits were new.

Diamond Dyes are adapted to many uses besides simply dyeing old clothing. Diamond Dyes give new life and usefulness to curtains, furniture coverings, draperies, carpets, etc. Beware of imitation and common package dyes; ask for the "Diamond" and see that you get them.

Sent by Wells & Richardson Co., Limited, Montreal, P. Q., for New Direction Book, Card of Dyed Samples, and Verse Story, entitled, "The Longjohns' Trip to the Klondike." All sent Free by mail.

## SPORTS

### THE OAR

Cornell Wins From Harvard  
Boston, May 25.—In a magnificent race, which was contested stubbornly throughout, the Cornell varsity eight-oared crew defeated the Harvard varsity eight-oared crew today by three lengths. The event was a splendid exhibition, by two carefully trained and finely balanced sets of oarsmen, especially in view of some adverse conditions due to a wind against the tide and a bad swell left by pleasure boats which the police had failed to clear from the course. Cornell's official time was 10 minutes 41.35 seconds, while Harvard's time was 10 minutes and 52 seconds. The varsity race was preceded by an eight-oared race between crews from the Carroll club, a preparatory school at Ithaca, N. Y., and the preparatory school of this city, which the former won in 8 minutes 15.15 seconds.

Another event was the single scull contest between Harvard men competing for the Carroll cup, and this was won by T. E. Smith, of the Law school, who took the Carroll trophy last year. The time was 8 minutes 17.15 seconds for the mile.

The varsity event was run off with the tide against the wind. The crews were given a flying start, and both eights caught the water at practically the same moment. Both Harvard and Cornell showed skill in going away, pulling a strong stroke, then half and then a three-quarter stroke, until the crews held even until the quarter mile, but Cornell then forged slightly in to lead until she was a full length to the good. At this time both shells were moving easily without the slightest change, and both were well spaced. At the half, when Cornell was rowing thirty to the minute and Harvard two strokes faster, the Ithacans had increased their lead to one length. At this point both crews began to feel the rough water and the both crews were forced to the spectators' craft.

Cornell throughout exhibited Coach Courtney's slow, steady stroke, which, with the eight oarsmen working in perfect unison, induced the Cornell shell fairly to bound through the water. At the three-quarter mile the Ithacans were one and one-quarter lengths ahead. They had done this with a stroke of 20, while Harvard was rowing 24. Gradually the gain was increased, and at the mile Cornell led by a length and a half. After this Courtney's men began to spurt. The stroke was brought up to 31, at which it was held until the finish. Courtney's men of Harvard took his cue from his Cornell competitors and increased the eights' stroke to 33. The Harvard eight responded manfully, the three-quarter mile being 2 1/2 lengths at the mile and a half mark. Still the Cornell lead grew half a length before the finish. Coach Courtney was much dissatisfied with the condition under which the race was rowed, and declared he would not approve of Cornell coming to Boston next year, where it seemed impossible to obtain a course free from pleasure craft. Mr. Courtney said he was satisfied with the showing his men had made, and characterized the work of Harvard as "splendid," but he declared the conditions had afforded no satisfactory test of what either crew could do.

### ATHLETICS

Meeting at Harvard  
Boston, May 25.—What is expected to prove the largest athletic meet ever held in this country because of the large attendance at Harvard, with the trial events in the thirtieth annual championship games of the Intercollegiate Association of Amateur Athletes of America. Nearly 800 students and athletes from the universities and colleges in the East are in this city ready to compete in the thirteen events which constitute the meeting.

### LAWN TENNIS

International Games  
London, May 25.—With the addition of A. W. Gore, the team selected to defend the title of Davis Cup champions in tennis is the same as the one which successfully held the International trophy last year against all comers. France, against whom the Americans are pitted in the first round, is represented by Donatien Germot and five others. The first two played in behalf of France in 1905, and suffered badly at the hands of Wright and

## Educational Contest Lists Destroyed By Fire

CONTEST EXTENDED TO  
July 31st, 1906

Messrs. Armour Limited, Toronto, regret to advise all who have so kindly forwarded lists of names as per the conditions of their Educational Contest, that their building, with its entire contents, was destroyed by fire on the evening of March 19th, and all records of lists they have received, as well as all lists, were destroyed, and we ask that all who had sent in lists previous to this time, mail us duplicate lists. To make up for time lost by the fire, and to give all competitors a fair and equal chance, we have consented to extend the Educational Contest until July 31st, 1906.

We offer \$200.00 in gold to those sending in the largest lists of correct words made from the twelve different letters used in spelling the four words.

## Armour's Extract of Beef

\$100.00 in gold will be given as the first prize.  
\$25.00 in gold will be given as the second prize.  
\$10.00 in gold will be given as the third prize.  
\$5.00 in gold will be given to each of the next five.  
\$2.00 will be given to each of the next twenty.

### CONDITIONS

Use only the following 12 letters: A-R-M-O-U-S-E-X-T-C-P-B. No letter to appear in the same word twice.

Only such words may be used as are found in Webster's International Dictionary.

No proper names, foreign words or names of persons, towns or places are to be used.

Words spelled the same, but having different meanings, may be used but once.

All contestants must attach to their lists a medical certificate from a local "Armour's Extract of Beef." Failure to do this puts the list out of competition.

The names of the winners of these prizes will be determined by judges who shall be appointed. Write only on one side of the paper. After making out your list, state the number of words it contains, with your full name and address at the top of the envelope, and put the list on the outside of the envelope. "Educational Contest Department," and mail to our address as below.

Armour's Extract of Beef is sold by all druggists and grocers. If you cannot or will not supply you, a small jar will be mailed you, post paid, on receipt of 25 cents in cash or stamps.

Armour Limited  
77 FRONT ST. EAST, TORONTO

Ward, who, however, are likely to find the Frenchmen a very close contest. The met's Duquesne and Germot won the doubles at Athens during the recent Olympic games. Should the Americans defeat France, as anticipated, they will have to meet the winners of the Australian and Austrian competitors before facing the British cracks in the challenge rounds at Wimbledon, June 15, 16 and 18.

### GOLF

English Championship  
Hoylake, Eng., May 25.—The amateur golf championship tournament was concluded today with a victory for James Robb, who defeated C. C. Longen by four up and three to play in a 36-hole match.

American Championship  
Auburn, Mass., May 25.—Miss Paula Ingham, of the Oakley Country club, the national and state women's golf champion, today retained her state title by defeating Miss Harriet S. Curtis of the country club in the final round of the women's state golf tournament at the Woodland Golf club, seven up and six to play. In the final round for the Phelps' prize, Miss P. C. Osmond, Country club, defeated Miss L. A. Wells, Country club, 1 up in 19 holes.

### THE RING

Rufe Turner Wins  
Vancouver, May 25.—Rufe Turner last night knocked out Nelson Williams in the third round of a ten-round bout. Williams, who claims to be lightweight champion of Australia, never had a look-in. He was half a head taller and his reach was about twice as long as Turner's, but the latter nearly had the Australian out in the first round. Rufe looked a smashing left against Williams' jaw and the Australian was lying flat on his back when the count of ten was called.

Match Ends in Squabble  
Los Angeles, May 25.—There was no fight between Battling Nelson, the lightweight champion, and Aurelia Herrera tonight, as scheduled. After an almost interminable wait of two hours the crowd was dispersed at 10:30 because Herrera refused to weigh in.

Before the crowd of 1,500 was finally dismissed, there was a squabble between the fighters and their managers over the weight. Both sides made charges of sharp practice on the part of the other in the matter of weight.

The articles of agreement called for the weighing in at 6 o'clock p.m., both men to scale 131 pounds. The men were on hand at the stipulated hour.

## Eating Carelessly

frequently causes stomach troubles, but careful eating will never right them. When your stomach is out of condition, it needs help that no food can supply. It must be thoroughly cleansed, settled and strengthened. Food never does this.

## BEECHAM'S PILLS

are the greatest stomach medicine human skill ever compounded. Don't attempt to cure your stomach by dieting. You will half starve and get little benefit. Give Beecham's Pills a chance and you will again know the pleasure of a sound digestion. Appetite will return and the stomach again work without any discomfort. The skin will clear, the face plump out, while people will remark "How well you're looking." These are facts, not fancies. Prove it yourself.

Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold by all Druggists in Canada and U. S. America. In boxes 25 cents.

That "it pays to pay for quality" is never more fully exemplified than in the buying of whiskey. Those who prefer Irish Whiskies to those produced in other parts of the world will find in

# BURKE'S DUBLIN WHISKEY

the realization of their ideal. Produced from the world's finest barley, by experts in its proper manipulation, this fine Old Irish Whiskey is beyond doubt as close to perfection as it is possible to bring an alcoholic beverage.

SOLD BY ALL LEADING WINE MERCHANTS.

## MURDERS AND DISORDERS CONTINUE IN RUSSIA

Killing Reported From All Parts of the Empire—Another Strike.

Tyris, May 25.—M. Lefvre, the principal engineer of the Caucasus railway shops was killed today. The crime is attributed to political motives.

The social democrats have been completely victorious in this city and in many districts of the Caucasus in the first degree elections for members of the lower house of parliament. In this

city the social democrats elected 72 out of 81 electors.  
Grodno, May 25.—Sergeant of Police Kost was shot and killed in the open streets today and Assistant Captain Shukilo was wounded. There is great feeling against the terrorists.  
Odessa, May 25.—A. Veyland, a student of the electric-technical school was today condemned by a court martial to death by hanging. He was convicted of being a member of a band of terrorists and pillagers.  
Perm, European Russia, May 25.—The governor of this province has requested the abrogation of the state of reinforced security in the province of Perm. Tranquility generally has been destroyed.  
Windau, Courland, May 25.—A large peasant proprietor named Krouberg was killed today by a band of Lettish revolutionists.  
Tula, Central Russia, May 25.—Prof. Radetski, principal of the High School here, was killed in the streets today by a youth of 19. The crime was the outgrowth of attempts to suppress a revolutionary propaganda in the school. The murderer escaped.  
Liban, May 25.—The police today discovered a store of 3,100 revolver cartridges in this city.  
Odessa, May 25.—The strike of sailors, stokers and stevedores recently inaugurated here has become general. All the shipping companies are affected and not a single ship was able to leave port today.  
RAIN AND HAIL STORMS.  
Helena, Mont., May 25.—Rain has fallen for the last three days all over the state and the long continued drought in northern Montana has been broken and water holes, which have been dry over a year are filled with a plentiful supply of water. Cattlemen say the rain is worth many thousands of dollars to them. The ranges have long been parched.  
Hosack Falls, N. Y., May 25.—The most severe thunderstorm of the season

### USE ONLY THE BEST

passed over this section this afternoon doing much damage. Houses were unroofed, trees blown down, windows broken with hailstones and fruit trees suffered severely.

### STANDARD OIL METHODS.

Former Employee Gives Evidence Before Commission.

Cleveland, Ohio, May 25.—George L. Lane, an employee of the Standard Oil Company previous to the year 1901, testified before the interstate commission this afternoon that his business for several years with the Standard Oil Company was to drive out the inde-

pendent dealers, to kill them off, and he was told that if he could not do the job somebody else would be sent to put the Standard's competitors out of business.

Lima, Ohio, May 25.—It is announced tonight that the headquarters of the Standard Oil Company, one of the largest business points of that company, are to be moved to Cassey, Ill. The manager today received orders to remove his entire force there by Sunday. No reason is given for the withdrawal from this city. The Illinois fields are operated by the Ohio company from here.

### PORT DALNY WORKS.

Japanese Announce Completion of Pier and Warehouse.

Tokio, May 25.—The military authorities today announced the opening of a pier and warehouse at Port Dalny, Liaotung peninsula, for the use of Japanese subjects. It is authoritatively explained that this is only preliminary to opening the port to international trade, which will occur early. The action just taken by the military authorities is regarded as being one of the first fruits of Premier Saioja's recent tour of Manchuria.

### IS NERVILINE AT HOME?

Scarcely a day passes in a large family without a call for Nerviline. The reason is simple. Nerviline cures aches, pains and sickness.

From Willow Creek, Ont., Miss E. Diesel writes: "A few days ago I was drenched with rain and got lumbago; it was like a steel rod piercing my back. I also had earache, and was wild with pain. To my ear I applied batting soaked in Nerviline, and rubbed it on for the lumbago. Friends said it would take days, but one rubbing gave relief in a few hours. No other ailment but Nerviline could do this." Large 25c bottles sold everywhere.

### CONSERVATIVE UNSEATED.

Member of Imperial House Loses His Seat Through Bribery.

London, May 25.—After a prolonged investigation the election of M. H. Williamson, Conservative and tariff reform member of the House of Commons, for Worcester was declared void by the election court on the ground of bribery by the candidates' supporters.

## THEATRICAL

Opening on Monday May 28th with "Wife for Wife" and with a repertoire of plays including such titles as "A Texan Ranger," "The Fatal Wedding," "At Piney Ridge," "Dora Thorne," "A Mountain Daisy," and others, the Lyceum Theatre company will play at the Victoria theatre for the next two weeks. The company includes sixteen people, among whom are H. B. Carpenter, Zellah Covington, Arthur Ashley, Lawrence Williams, Daniel Gilfeather, Andrew Adolers, W. W. Bitter, Ruby Lindsay, Rose Wilbur, Mary Fleming, Beatrice Allen and the Three Kealey sisters. A complete scenic and electrical production of each play is promised and the bill will be changed nightly. The opening bill: "Wife for Wife," tells the story of the fancied wrongs of a negro slave who is a half breed. The story is full of heart interest and abounds with good wholesome comedy. On Monday night, each holder of a paid 30 cent ticket will be entitled to one ladies' free ticket. Popular prices will prevail.

### CHURCH UNION CARRIED.

Two Branches of Presbyterian Church in the United States Unite.

Des Moines, Ia., May 25.—Church union sentiment reached its highest point in the Presbyterian general assembly here today, when a declaration of 17 commissioners from the Cumberland assembly were received in the assembly of the Northern church, now assembled here. When they entered the great hall, containing 75 assemblymen and about 2,000 spectators, the woe assembly came to its feet and waved handkerchiefs for fully five minutes after the visitors had been escorted to the stage. Here they were introduced to Moderator Hunter Corbett. When the moderators of the churches, which were two yesterday and one today, clasped hands, the demonstration reached its zenith. The visitors were then presented to the assembly, and each delivered a brief address.

### DERELICT'S CREW SAFE.

A telegram received in the city this evening from Fame Point, a signal station on the St Lawrence 320 miles below Quebec, says that station was in communication by wireless telegraph with the Allan line steamship Ionian, inward bound from Liverpool, and that the Ionian reported that she had on board the crew of a Norwegian ship abandoned in lat. 63 deg. 39 min. N. and long. 38 deg. 37 min. W. longitude by observation. It was added that the derelict had been fired. Nothing more is known here of the identity of the vessel.

### OBITUARY.

News was received in the city yesterday that Mrs. Harriet Macauley, widow of the late W. J. Macauley, of this city, had passed away at Seattle on Thursday.

### EXHAUSTION OR IRON ORE SOURCES.

In the course of his lecture at the Institution of Civil Engineers' meeting on the 2nd instant, Mr. R. A. Hadfield stated that it is unlikely there will be any halt in the enormous demand for iron; therefore it is quite probable that the end of the century, if the present ratio of increase continues, there will be a call for over 500 millions tons of iron ore annually; for, in addition to existing areas of consumption, Eastern nations will, without doubt, before long enormously add to their demands. This naturally raises the question, Will our sources of supply run short? It is a problem which time alone can determine. It can, however, almost with certainty be foreseen that the known iron ore fields of North America, Germany and England will be exhausted within one or two centuries from now.

A great strike of cotton operatives was averted recently in Manchester, Eng., by the Employers' Federation granting the cardroom workers their demand of 5 per cent. increase in wages. More than 100,000 operatives were involved.

DO YOU EVER FIGURE THE COST of a single day's baking—the material, fuel, time and labour—and consider that it is all wasted if the baking is a failure?

Results are usually satisfactory or otherwise according to the flour you use. Is it economy, then, to use a flour of uncertain quality when a few cents more will buy

## Royal Household Flour

a flour that you can depend upon to produce light, crisp and wholesome bread or pastry?

Royal Household flour does not vary in quality—does not disappoint. It is made from selected hard wheat, milled by a most modern process which guarantees absolute purity. And purity in flour is a matter of the very greatest importance.

## The Plain Truth About Twenty-seven Automobiles

What about an Auto at such Prices as These? HERE is a terse, plain, honest description of 27 automobiles. Any one is great big value for the price. Every one is a good make, in good running order --- most of them are actually in first-rate new condition. Consider that a modern motor car --- and every one of these is a modern motor car --- is as easy to run as it is to drive a horse --- and actually safer than most horses --- and actually less expensive to keep, as well as being instantly ready for use when you want to use it.

Look over the List --- consider which car you might possibly be interested in if it is all we say it is. Check on the coupon the number of such cars as might interest you; write your name and address plainly on the coupon and mail it to us. We will send you pictures, full details and special terms. Every car in this list --- every car we sell --- we warrant in all respects fit to buy and as we represent it.

## The Biggest Bargain of the Whole List is This No. 1

- No. 1—Rambler Touring Car, 1905 Model, 18 h.p., double opposed cylinders. Car seats five with comfort. Side entrance, tonneau (same as newest high-priced cars). Complete with acetylene gas generator and searchlights, side and tail lamps, horn, etc., etc. First-class condition. Same style sold last year for \$1,750. Price to quick buyer \$1,000
- No. 2—Packard, 4-cylinder car, 1905 model, with plate glass windshield, cape car top, and everything complete, for a first-class high-grade touring car. Will seat five people comfortably. Fitted with Diamond tires in fine condition, as is indeed the whole car. Body beautifully finished in rich, dark green; price includes acetylene gas outfit and five high-grade lamps, side baskets and, in fact, everything that ought to go with a car as good as this. Absolutely as good a purchase as any automobile buyer can possibly consider. Really worth fully \$500 more than our price, which is \$3,000
- No. 3—Packard 4-cylinder car, Model "L." With canopy top and side baskets. Good tires throughout and one extra tire. Is \$2,200 very low at
- No. 4—Haynes 1905 Runabout, 18 h.p., Folding front seat, leather hood, 4 in. high grade tires. A splendid car for physician's use. Big value \$1,300
- No. 5—Russell Model A. Touring Car, complete with top, searchlights, lamps, etc. Car seats five, and is fitted with all 1906 improvements—a strictly up-to-date machine in practically new condition and a special snap at \$1,125
- No. 6—Russell, Model A., with all 1906 improvements especially fitted to it, 12 h.p. Double opposed cylinders, no vibration. Shaft drive. Sliding gear transmission. 3 speeds and reverse. Strictly up-to-date. Will climb any hill. Quite worth \$1,300. To a quick buyer price is \$1,000
- No. 7—Russell 1905 Car, 12 h.p. Shaft drive and sliding gear transmission. A fine car. Used but little during one season. Price \$1,000
- No. 8—Rambler 1905 Touring Car, 18 h.p. Extra large tonneau. Fitted with searchlights, lamps, etc. In fine condition. \$1,000
- No. 9—Pope Hartford Light Touring Car 1905 Model, 10 H.P. Seats four. Has never been used. Absolutely beautiful car at any price and notable value at our price. \$850
- No. 10—Stevens Duryea Runabout with folding front seat, full leather top. Good car for physician's use. Condition first-rate. Excellent value \$800
- No. 11—Autocar—12 H.P. Touring Car. Engines up-to-date—placed in front. Sliding gear transmission. 3 speeds and reverse. This car is in good condition and is a sound investment at the special price of \$725
- No. 12—Knox Runabout, 8 H.P. Air-cooled engine. New condition. Big bargain for \$625
- No. 13—Rambler, 16 H.P. Touring car. Side baskets—and a good model in good condition. A bargain at \$600
- No. 14—Waverley Electric—complete with leather top. Batteries in fair condition. A safe purchase at \$600
- No. 15—Rambler Touring Car, with tonneau—good, big, roomy car. 16 H.P. Engines have been thoroughly overhauled. Whole car is in excellent running order, and has the style of a new One Thousand Dollar car. Good solid value at \$550
- No. 16—Cadillac, 10 H.P. A good car in unusually good order. Fine value at \$550
- No. 17—Mitchell 7 H.P. Runabout. Air-cooled engine. Sliding gear, 3 speeds and reverse. Wheel steer. Almost new, and a special bargain at \$500
- No. 18—Rambler, 7 H.P. Runabout, with fine leather top. Suitable for physician's or for lady's use. Good car for \$550
- No. 19—Ford, 10 H.P. High class engine. Fitted with tonneau, or can be used as runabout. In good condition. A powerful car \$560
- No. 20—Autocar, 10 H.P. Engines in front under bonnet. Sliding gear, shaft drive. A special snap at \$500
- No. 21—Pope Tribune Runabout, 7 H.P. Shaft drive. Sliding gear transmission. Wheel steer. For a very moderate outlay this car represents probably the biggest real value of any of the big values this list shows. The car is strictly in new condition, up-to-date and reliable in every particular. Beautifully finished in rich, dark green, and, honestly, a good enough car for anybody. Cars like this sell right here in Toronto for \$200 more than our price. Actually \$450
- No. 22—Autocar, 10 H.P., has been completely overhauled and put in fine order. Sliding gear, 3 speeds and reverse. Remarkable value at \$500
- No. 23—Cadillac, 10 H.P., with tonneau. Complete with lamps and horns. In good condition, \$450 and real value at \$450
- No. 24—Waverley Electric Runabout, a smart little car. Complete except batteries. Special price \$275
- No. 25—Oldsmobile. Seats four and is a compact, neat, safe little machine to buy. Fitted with new front tires and in good condition. Offered at the absurdly low price of \$275
- No. 26—Rambler Runabout 7 H.P. A first-rate little car for everyday and priced very low at \$270
- No. 27—Winton Runabout. With leather top. More than full value at \$225

Look over the list, fill in the coupon below, clip it out and mail to

## VICTORIAN DESCRIBES HIS JAUNT TO PATAGONIA

Stanley Cameron Tells of the  
Hardships He Has Already  
Undergone.

Stanley Cameron of Victoria, one of the firm of Messrs. Cameron Bros., until a few months ago proprietors of a livery stable on Johnson street, who was sent on the long journey to Patagonia in consequence of favorable reports received by the late William Munzie, representing great gold discoveries there, has sent the following letter to a friend in Victoria. It is dated Arica, Chili, April 21, 1906:

"This is the first opportunity I have had of writing you since I sent you a postcard from Guayaquil, Ecuador. We are having the worst luck you can imagine—nothing but delays. We were six days at San Jose, Guatemala, three at Corinto, five at Guayaquil, and then the longest and worst delay. We left Guayaquil Friday, March 23, and arrived at Callao Peru on March 27. When we were examined by the doctor of the port, he found two yellow fever suspects and ordered us in quarantine for three days. All steamers coming from Ecuador have to be in quarantine for seven days before they can land in Peru. On the second day one of the firemen proved to have the fever. That extended our quarantine six days more. Just a day or so before our time was up, another case would break up. In all we had five cases aboard. Three of them died—the second officer, assistant engineer and one fireman.

"On April 11, when the third patient died, things were getting too serious for the Peruvians, so we got orders to move down here, which is the most northern port in Chili. Arrived here April 15. Here our quarantine was extended until April 18, when we were free. On April 19 we got fumigated for the fifth time. Once they got us up at 1 o'clock in the morning and smoked the ship. We had to walk the deck to keep out of the fumes.

"At Callao we were anchored, two miles from shore. No one, but the doctor from the quarantine or hospital ship was allowed to come near us; wouldn't even let us send mail ashore. Yesterday was the first time for a month that we have been on land. We could not walk straight.

"At all the ports we have called at so far we have had to anchor half a mile or more from shore. Callao was the only one with a pier, and that we didn't get near.

"From Callao, Lima could be seen in the distance. All the passengers were anxious to get out of quarantine so that they could visit Lima. It has a population of 150,000 and is the largest city on the coast in South America. On April 18, after our quarantine was raised, we tried to get aboard the Radamus, a steamer of this company. The captain made all kinds of excuses and would not take us. The fact was he was afraid of us, just coming out of quarantine. We leave here tomorrow. Don't know when we will be in Punta Arenas; probably in one month's time. We are just 71 days aboard today—about 5,550 miles from 'Frisco; about 2,700 miles yet to go. It will be about the middle of

### Dr. Pierce's Favorite Prescription

Is a powerful, invigorating tonic, imparting health and strength in particular to the organs distinctly feminine. The local, womanly health is so intimately related to the general health that when diseases of the delicate womanly organs are cured the whole body gains in health and strength. For weak and sickly women, nervous exhaustion, nervous prostration, neuritis, hysteria, spasms, chorea, or St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the womanly organs. It induces refreshing sleep and relieves mental anxiety and despondency.

Cures obstinate cases. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of "female weakness," painful periods, irregularities, prolapsus or falling of the pelvic organs, weak back, bearing-down sensations, chronic congestion, inflammation and ulceration.

Dr. Pierce's medicines are made from harmless but efficient medical roots found growing in our American forests. The Indians knew of the marvelous curative value of some of these roots and imparted that knowledge to some of the friendlier whites, and gradually some of the more progressive physicians came to test and use them, and ever since they have grown in favor by the testimony of their superior curative virtues and their safe and harmless qualities.

Your druggists sell the "Favorite Prescription" and also that famous alternative, blood purifier and stomach tonic, the "Golden Medical Discovery." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

winter before we get to our destination.

"The port we are in now has had no rain for four years; in fact from Peru down they very seldom have rain. The hills are all barren; the only vegetation grows along the banks of the rivers.

"The climate has deceived us. We thought when we got to the equator we would be roasted, but found it very agreeable. Mexico, Guatemala and San Salvador were very warm."

### "MADE IN VICTORIA"

A Further Reference to Some Attractive Window Displays.

The "Made in Victoria" store window exhibits were without doubt one of the attractive features of the celebration for the down-town sightseers who thronged Government, Yates and other business thoroughfares on the 24th and yesterday. Without disparagement to the other exhibitors, the display of the products of the British America Paint Company in the show windows of R. A. Ogilvie's hardware store at the corner of Broad and Yates streets was one of the best arranged. Here can be seen at a glance the whole range of dry colors, mixed paints, varnishes, etc., manufactured by the British America Paint Company, together with samples of the varnishes and paints done on various woods. Mr. Ogilvie is exclusive city agent for the firm's Prism brand of mixed paints and Bapac, and besides carries a full line of dry color materials, fronta varnishes and the agate wall finish. Anyone contemplating building a house or decorating, painting, etc., would do well to inspect the showing displayed in this firm's window.

### Victoria-Phoenix Brewery

Small but tastily arranged is the exhibit of the Victoria-Phoenix brewery in the window of Levy's restaurant. Samples of this well known firm's several brands of bottled goods, including export lager, stout and ale, are shown, and the display, to say the least, is a most appetizing one for the thirsty.

### BILIOUSNESS AND CONSTIPATION

"For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite was lost, my usual food did me no good. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's Stomach and Liver Tablets. The effects were simply marvelous. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally. They bring back new life and energy, a bright eye, a clear brow and a happy heart."—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by all Druggists.

### FRUIT GROWERS' ASSOCIATION.

Proceedings at the Quarterly Meeting Just Held at Duncan.

The regular quarterly meeting of the British Columbia Fruit Growers' Association convened in the Agricultural Hall, Duncan, at 2:15 p. m. of the 22nd instant. The president, Thomas A. Brydon of Victoria, occupied the chair. He was accompanied by J. C. Metcalfe of Hammond, H. Kipp of Chilliwack and the secretary, W. J. Brandriff of Ladner.

The minutes of the previous meeting were read and confirmed. The report of the executive committee was then read and adopted, the chief recommendations being the continuance of the educational itinerary as outlined at the annual meeting.

After routine business had been disposed of the president called on J. C. Metcalfe for his address on "Small Fruits." As is well known, Mr. Metcalfe is a successful strawberry grower, and his statements, being the result of practical experience, carried conviction. Numerous questions showed that the growers around Duncan appreciated the opportunity given them to obtain authentic information regarding the industry to which they had allied themselves. Mr. Metcalfe was accorded a hearty vote of thanks for his able address.

The chairman then called on Henry Kipp of Chilliwack for an address on "The Cultivation of Orchard Trees." Mr. Kipp in his own inimitable style related his own experience in fruit growing, and told how he planted trees and cared for them. He illustrated his method of pruning, having a couple of young trees for the purpose. He too was besieged with questions, to which satisfactory answers were given. The last speaker was Maxwell Smith, Dominion fruit inspector, who in his usual happy manner described the workings of the act relating to fruit packages. He and the preceding speaker were accorded a hearty vote of thanks for their interesting addresses.

The following resolution was unanimously carried:

Moved by Henry Kipp, seconded by G. H. Hadwen: "Whereas it has come to our knowledge that an effort is being made to stop the inspection of citrus fruits arriving in the province; and whereas it has been conclusively proven that citrus fruits carry San Jose scale; and whereas these fruits are being sent to every section of the province, thereby increasing the danger of infection; Be it resolved that the association requests the government not to do away with the inspection."

An opportunity was then given those present to join the association, which a large majority of those present did.

The meeting was the best ever held in Duncan, and there is no doubt that much benefit will be derived by those who attended it.

Monkey Brand Soap makes copper like gold, tin like silver, crockery like marble, and windows like crystal.

## ANNUAL MEETING OF THE MUSICAL SOCIETY

Gratifying Reports Presented—  
New Officers Are  
Elected.

The first annual meeting of the above society was held on Wednesday evening last at the city hall. His worship the mayor, honorary vice-president of the society, and a good number of members, were present. The reports of the committee and treasurer are appended:

The following members were elected to the committee for the ensuing year: F. Pemberton, C. W. Rhodes, D. M. Rogers, W. H. Langley, A. C. Flumert, A. T. Montiehl, E. R. Hicketts, Dr. R. Nash, to represent the associate members; Mrs. R. H. Pooley, Miss Saunders, J. G. Brown, W. D. Kinnaid, J. S. Floyd, W. Bain, H. Kent, and G. Phillips, to represent active members.

Mr. Gideon Hicks was unanimously elected conductor and Miss Miles and Mr. Parsons as accompanists.

A hearty vote of thanks was tendered to Sir Henri Joly de Lotbiniere for the great encouragement and assistance he has given to music during his term of office as lieutenant-governor.

His worship the mayor sincerely congratulated the society on its first year's work. As a business man the splendid financial statement appealed strongly to him and drew from him a warm expression of commendation, and, while not posing as an authority on musical matters, he complimented the society upon the result of its efforts to induce artists of note to visit Victoria.

A hearty vote of thanks to the outgoing officers for their unselfish and strenuous work concluded the meeting.

### Committee's Report

To the members of the Victoria Musical Society:

Ladies and Gentlemen,—On behalf of the provisional committee we have the honor to herewith submit a report for the first season of the society, just ended.

From an artistic as well as financial point of view, we think the society has cause for satisfaction. Victoria has certainly never had such a winter of music before, and the success of the Watkins Mills, Gerardy and Albani concerts has done much to remove the somewhat gloomy impressions of Victoria held by those managers who control the movements of the world's leading artists.

The season's work has demonstrated the possibilities of local endeavor. Were all the musical bodies of the city combined, still greater achievements could be accomplished, and any movement or suggestion tending to this should receive the support and sympathetic consideration of this society.

We desire to thank the Ladies' Musical club of Victoria for the interest manifested in the society's work, the mayor and aldermen for the use of the council chamber for rehearsals, the press for its great assistance, and to the musical public generally for its kindly encouragement and support.

The society is in communication with the leading impresarios of London and New York respecting next season's work, about which an interesting announcement may shortly be made.

The report of the hon. secretary-treasurer is appended hereto, which shows that the receipts of the society have been \$820.80, the expenditures \$477.40, leaving a balance in hand of \$343.40. The society has also a good stock of music and other property, and, considering the expense incidental to the formation of a new society, we think this is a very encouraging state of affairs.

In conclusion we beg to invite criticism from both associate and active members on the season's work. We are fully aware that in conducting the affairs of a big society such as this, mistakes are unavoidable, and therefore, for the benefit and guidance of our successors in office we solicit a full and complete criticism of our stewardship.

J. G. BROWN,  
Chairman.

GEO. PHILLIPS,  
Hon. Sec.-Treasurer.

### DISEASES OF THE SKIN.

Eczema, Tetter, Salt Rheum, Ring Worm, Herpes, Barber's Itch, Itch or Scabies.

All of these diseases are attended by intense itching, which is almost instantly relieved by applying Chamberlain's Salve and by its continued use a permanent cure may be effected. It has, in fact, cured many cases that have resisted all other treatment. Price, 25 cents per box. Every box is warranted. For sale by all Druggists.

### THE WEATHER.

Meteorological Office,  
Victoria, May 25—8 p. m.

### SYNOPSIS.

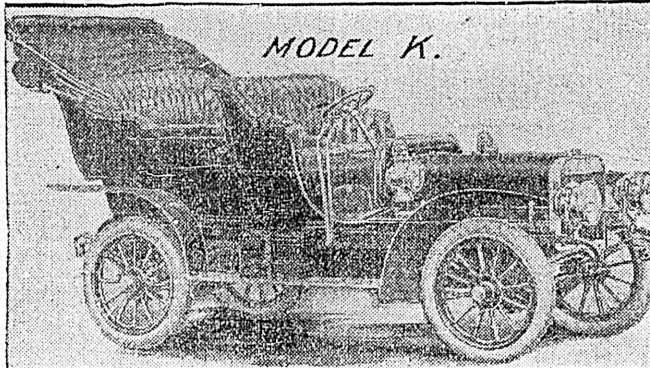

A storm area of much energy has developed on the Vancouver Island coast, the barometer falling to 29.25 inches; its movement will probably be southward through the Pacific states. Cautionary warnings for an easterly gale were disseminated.

## Treatment For Coughs and Colds

It is not a question of whether you will need a treatment for coughs, colds and croup in your home, but the question is, will you select the most effective medicine, or simply be satisfied to take whatever your druggist happens to hand out to you?

Time and experience have proven that you can depend on Dr. Chase's Syrup of Linseed and Turpentine at such times. It is only necessary to remember this when the critical time comes, and to insist on getting what you ask for.

Should you have children who are subject to croup, you had better keep a bottle of Dr. Chase's Syrup of Linseed and Turpentine in the house, for when the choking spasm comes on there is little time to send for doctor or medicine. Being pleasant to the taste, it is read-ily taken by children, because it brings quick relief to the sufferer from asthma, bronchitis, whooping cough and all the most serious diseases of the throat and lungs. It is invaluable as a household medicine; 25 cents a bottle, at all dealers, or Edmanson, Bates & Co., Toronto.

## The Self Starting WINTON

No more "cranking!" Start the Car from where you comfortably sit. You can sit it now with the new Winton Model K. Just move the Ignition Dial-Lever a trifle, on top of Steering Wheel. That finds one of the four cylinders reared charged with Gas, and will Spark it into action without "cranking."

You thus save dignity and temper. You also save gasoline and electricity. Because you can now shut off the motor every time you stop, and start it again when ready, from the seat. This saves the motor from a lot of needless running when Car is standing still, waiting for something or somebody.

And a dainty Woman may now drive a Winton, without the inelegant necessity of "cranking" it at every stop.

But, think what this self-starting quality in a Winton Car proves for the Car's construction. It proves almost perfect compression of Gas in the cylinders.

Because, you couldn't start the motor with an electric spark, unless there was gas in the cylinder, retained there since the motor last ran, under high compression.

Any flaw in the boring of the cylinder, or in the seating and fitting of the piston and its rings, would let the gas leak out shortly after compression. If not "fired" at once.

This is where the Winton system of grinding the inside of cylinders, instead of boring them, shows its great advantage.

In boring a cylinder, the thin walls are likely to spring away from the auger, or to have a burr, whenever there is a hard spot in the metal. This portion, when it "springs back" again, after the tool has been withdrawn, leaves a permanent elevation, or friction spot. For the piston to chafe against—with a leaky place on either side of it to lose compression.

And, wherever there is a softer spot in the cylinder metal, the tool bores through it too easily, with less expansive pressure on that part of the wall than on surrounding places.

That creates a sort of depression in the wall of the cylinder, which lets gas escape past the piston.

But with grinding it is different. Grinding out a cylinder brings no expansive pressure on its walls.

Because, the use of an auger that fills the whole interior of the cylinder, as in boring, the grinding is done by a small Emery or Carborundum wheel that revolves on a revolving shaft in an opposite direction to that auger.

This small grinding wheel thus follows the inside wall of cylinder, and cuts away the steel with Emery, in an absolutely true circle.

It also leaves behind it a perfectly smooth, non-friction, mirror surface, instead of the coarse, wire surface left by boring.

**Vancouver Automobile & Bicycle Co., Limited**

### FORECASTS.

For 24 hours from 5 a. m. (Pacific time)

Victoria and vicinity: Moderate or fresh northerly and easterly winds; chiefly cloudy, with showers, and stationary or higher temperature.

Lower Mainland: Light to moderate easterly winds, stronger on the straits; unsettled, with rain, and not much change in temperature.

### OLD AGE

Old age is not a question of years. Some men are old at forty, others are young at sixty.

It's a mighty hard proposition to look young, no matter how young you feel if your hair is falling out and your head becoming bald.

Perhaps you are tired trying ineffectual remedies for this evil.

We don't blame you if you are. Why not try an effective one for a change?

Newbro's Hairpeptide kills the Dandruff germ—which is the cause of the whole trouble.

Destroy the cause you remove the effect.

Sold by leading druggists. Send 10c. in stamps for sample to The Hairpeptide Co., Detroit, Mich.

## CAPT. JOHN DEVEREAUX DROWNED AT ESQUIMALT

Pioneer Mariner Is Victim of Boating Accident Yesterday Afternoon.

As a result of an accident while sailing in a small boat yesterday afternoon, Captain John Devereux, superintendent of the Esquimalt drydock, lost his life. Captain Devereux, who was well on in years, was seen in the drydock engaged as usual until noon yesterday, and it seems that shortly after luncheon he went out from the point at the entrance to the drydock in a 20-foot boat which had been built by some of the employees of the dock and naval yard for use as a duck punt. They had put a centreboard in the boat and used it at times for sailing. Wollen, an able seaman of H. M. S. Shearwater, saw Captain Devereux in the boat not more than 80 feet from Brothers Island, the islet off the point on which the church formerly stood near the terminus of the Esquimalt car line. The deceased was then standing in the boat. This was a few minutes before 2 p. m. A few minutes later the seaman looked again and saw the boat drifting without anyone in it. The alarm was given, and shortly afterwards, at 2:15 p. m., sailors from H. M. S. Shearwater found the body of Captain Devereux drifting at the entrance of Esquimalt Harbor on the line between Dunze Head small gun battery and the point with the light-house at the extreme of the naval yard. Death had evidently occurred but a short time before. The watch carried by deceased had stopped at 2:10 p. m. Captain Devereux, who was falling in health because of his years, had presumably lost his balance while standing up in the craft, probably to adjust his sail. As far as can be learned, there were no eye-witnesses of his death.

On finding the body, officials at Esquimalt telephoned at once to Dr. Hart, who with Dr. O. M. Jones hurried at full speed to Esquimalt. Captain Devereux, however, was beyond human aid. Dr. Hart, the coroner, will hold an inquest at 11 a. m. today.

The deceased captain previous to coming to Victoria in 1864 was for some time in the employ of a steamship company which operated a line of steamers on the South American coast, he being master of one of the company's steamers running from Chill to Panama. In 1864 he came to Victoria and was given command of the steamer Thames, which vessel Captain Devereux took to Honolulu, from there to San Francisco, and thence to Nagasaki, Japan, where she was sold to a Japanese. After the Thames was sold Captain Devereux returned to Victoria and was next in command of the government steamer Sir James Douglas, succeeding Captain Campbell and Morrison. He ran the steamer in the Puget Sound postal service for a short time in 1873 until the Stars placed the old Isabel, the hull of which is now a barge at Esquimalt, on the route. In 1883 the Douglas was lengthened 20 feet, and on taking the water again ran in the government service in charge of Captain Devereux until 1887, when Captain Gardner took her. After leaving the government steamer the deceased captain became superintendent of the Esquimalt graving dock, in which position he remained until his death.

Deceased leaves a wife, four daughters and four sons.

## Local News

Goes to England.—J. K. Worsfold, provincial assessor and collector, left for England yesterday on a holiday trip, having been granted three months' leave of absence.

Valuable Pup Poisoned.—S. McB. Smith is regretting the loss of a handsome English setter pup, which died a few days ago from an overdose of Acrea Nut. The pup was very nicely marked and was well bred. Her mother was Mollie Montez and her father Victor L. Both are well known in this city and have captured many prizes.

Of B. C. Pine.—The new 1,400 foot dock which being built at Fort William by the Grand Trunk Pacific is fast getting into shape. The piles are 50 feet in length and are driven down to the solid rock. The stringers are of British Columbia pine, 12x12, while the planking of the dock is 6 inches in thickness. Lyman Cody is looking after the work in the interests of the G.T.P., and the Barnett & McQueen company are the contractors.

Thirty Thousand Fares.—The traffic on the street cars during the present celebration has been unprecedented. The total number of fares collected on Thursday was close on 30,000, which, when taken in comparison with the city's population, would show that about 5,000 over the estimated population traveled on the cars during the last day. With attractions going on in different sections of the city at the same time, it was a hard proposition to arrange a service that would satisfy every one, but on the whole very few complaints have been heard. The large crowd were well taken care of, and the entire attendance at the regatta was handled before 6:30 p. m. At the baseball yesterday a satisfactory service was given, and at the finish of the game there were cars for all.

A Lucky Escape.—What might have proved a very serious matter to the lady principally concerned, was fortunately averted by the interference of timely help at the George Thursday afternoon. It seems that a couple of Indians who had secured a bottle of squareface were having a "hi-yon" time in the bush adjacent to Curtis' Point and in close proximity to the roadway leading down to that favorite resort. A well meaning lady who saw the Indians drinking went up to them, and, snatching the bottle, proceeded to pour its contents on the ground. One of the Indians, in his drunken rage, grabbed the bottle from the lady and was about to brain her with it, when a gentleman, who had arrived just in time, grabbed the Indian's arm and, with assistance, succeeded in quieting him.

The Governorship.—J. J. McGee, clerk of the Privy Council of Canada arrived from Ottawa yesterday evening and is a guest at the Diard hotel. Mr. McGee's mission to Victoria is to administer the oath of office to Hon. James Dunsinuir as lieutenant governor of British Columbia in succession to Sir Henri Joly. Mr. McGee will, this morning, arrange for the performance of this duty, which will likely take place at the parliament buildings in the presence of Hon. Premier McBride and the members of the executive.

Baby's Bibs.—Fancy lace edge, 5c. White Cambric Bibs, lace edge silk embossed, 15c up. Silk Bibs, lovely designs, 30c, 40c and 50c, also Rubber feeders. Robinson's Cash Store, 86 Yates street.

Back From 'Frisco.—Malcolm B. Searth, formerly a member of the Colonist reporter staff, and in recent months a resident of San Francisco, is in the city on a brief visit while en route to New York over the C. P. R. Mr. Searth passed through the terrible ordeal of the earthquake and subsequent conflagration which laid the Bay City in ruins, and has many thrilling tales to relate of his experiences. He says the people of San Francisco are grappling splendidly with the huge problem of rebuilding the city, but it will be a long time before it resumes its old-time grandeur. Mr. Searth leaves for the East today.

## Book and Stationery Department

MAIN AISLE.

Before you buy a Fountain Pen see the "Standard Plunge"—it is away ahead. "The Standard Plunge" Fountain Pen has a double-joint, non-leakable ink joint in the middle of the barrel, away from the finger grasp, which prevents ink fingers and makes a clean pen when in use. A flange at the mouth of the holder keeps the cap and prevents the sweating or slopping over of ink on to the finger grasp, thereby making a clean pen when not in use.

If you are particular what you write with, you want to purchase a box of our fine stationery and a flange pen; each pen guaranteed. Don't forget, also, a bottle of our fountain pen ink. Why use a "STERLING FOUNTAIN PEN"? For the following reasons: It has a middle joint, and does not leak the fingers; it has a flange which makes it easier to hold, and the cap cannot come off in the pocket; it is the best and most reliable; it is better value than any other pen; it is less liable to get out of repair.

In addition to its general excellence of quality, it is guaranteed by us. It will afford us pleasure to show you these pens, even though you do not wish to purchase.

Ask for "STERLING FOUNTAIN PENS."

STATIONERY.

We have just opened a lot of very fine

Linen Box Papers; beautiful texture and delicate shades; 24 sheets of Paper and 24 Envelopes at the following low prices: 25c., 35c., 40c. each. Be sure to purchase one of these boxes.

For something better in Stationery, we can show you Eaton, Hurlbut's (nothing more attractive), Crane's Linen, Hurd's Linen, in all the popular shades, and at popular prices. You want the JUNE MUNSEY, LADIES' HOME JOURNAL, COSMOPOLITAN, etc.

NEW BOOKS.

If you want a good one, buy here. All the latest novels you will find in this department, together with the June Magazines.
